DEPARTMENT OF FINANCE,
OTTAWA, JANUARY 6, 1939.

The Honourable CHAS. A. DUNNING,
Minister of Finance.

SIR:— I have the honour to submit to you the Public Accounts of the Government of the Dominion of Canada for the fiscal year ended March 31, 1938.

CLASSIFICATION OF ACCOUNTS

The broad classification of the public accounts which was adopted in 1935-36 has been continued for 1937-38. The comments which follow, therefore, will deal on the Revenue side with Ordinary Revenues, Special Receipts and Credits and Other Receipts and Credits; and on the Expenditure side with Ordinary Expenditure, Special Expenditures (chiefly for unemployment and agricultural relief), operating deficits of, and non-active advances to Government-owned Enterprises, Capital Expenditures, and Write-down of Assets.

ORDINARY RECEIPTS AND EXPENDITURES

The receipts for the year on Ordinary Account amounted to \$510,297,581.44, and the expenditures on the same account to \$414,891,410.41, resulting in a surplus on Ordinary Account of \$95,406,171.03.

SPECIAL RECEIPTS AND EXPENDITURES

In addition to Ordinary Receipts there were Miscellaneous Receipts and Credits of \$3,009,879.32, of which \$1,184,496.92 represented refunds of previous years' expenditures under the various relief acts.

Special Expenditures aggregated \$68,534,364.08. Of this amount \$24,585,832.80 represented expenditures for Western drought area relief and the balance of \$43,948,531.28 was accounted for by expenditures on relief projects, other works and grants-in-aid to provinces.

A statement of Special Receipts and Special Expenditures follows:—

GOVERNMENT OWNED ENTERPRISES

Expenditures were made under this heading to the amount of \$44,833,388.20. Of this sum \$42,745,790.64 was charged to Consolidated Fund and the balance to Loans and Advances Non-active. The amount charged to Consolidated Fund was almost wholly accounted for by the net income deficit of the Canadian National Railways for the calendar year 1937. This deficit amounted to \$42,345,867.99, of which \$37,882,157.77 was attributable to the System exclusive of Eastern Lines. The deficit on account of Eastern Lines amounted to \$4,463,710.22, and the balance of \$333,287.34 was due to the deficit of the Prince Edward Island car ferry and terminals. In addition there were payments to the Trans-Canada Air Lines of \$111,005.07, and to the National Harbours Board of \$288,917.58, representing operating deficits arising during the calendar year 1937. The operating deficit of the National Harbours Board is accounted for as follows: Churchill Harbour, deficit \$140,889.61 and deficiency in working capital \$15,463.05; Quebec Harbour, \$108,706.60 and Prescott Elevator, \$23,858.32.

Non-active loans and advances to Government Owned Enterprises totalled \$2,087,397.56. Of this total the National Harbours Board accounted for \$1,983,758.00, allocated as follows: Churchill Harbour, \$9,443.94; Halifax Harbour, \$964,338.37; Montreal Harbour (Jacques Cartier Bridge), \$367,000; Saint John Harbour, \$536,336.77 and Three Rivers Harbour \$106,639.52. The balance of \$103,838.96 was made up of two items: (1) \$87,398.55, being the operating surplus of the Canadian National Steamships for the calendar year 1936, originally carried as a reduction in non-active loans and now credited to Consolidated Revenue Fund under Special Receipts; and (2) \$16,440.41, representing an advance for capital expenditures on vessels under the Company's control during the calendar year 1937.

CAPITAL EXPENDITURES

The following outlays were made during the year and charged to Capital Account:—

Public Works, page 8.....	\$ 4,358,698 46
Railways, page 8.....	71,453 51
	<u>\$ 4,430,151 97</u>

The following transfers and refunds of expenditures made in previous fiscal years were credited to Capital Account:—

Public Works, page 9.....	\$ 1,513,945 16
Railways, page 9.....	8,677 90
Canals, page 9.....	20,512 17
	<u>\$ 1,543,135 23</u>

The result was a net charge to Capital Account of \$2,887,016.74.

WRITE-DOWN OF ASSETS

During the year there were write-downs of active assets totalling \$760,147.75. Loans for Soldier and General Land Settlement purposes were written-down \$719,765.98 of which \$493,210.73 represented write-offs made under authority of the Soldier Settlement Act and amendments thereto, and \$256,555.25 represented adjustments under the Farmers' Creditors Arrangement Act. A small amount of \$246.77 was written off Assisted Passage Loans advanced under the

Empire Settlement Scheme. Capital Stock of the Canadian Farm Loan Board was also cancelled in the amount of \$10,135.00, including \$2,730.00 of subscriptions written-down in virtue of adjustments made under the Farmers' Creditors Arrangement Act.

In addition to the above, the sum of \$14,197.51, representing the established losses during the year in Seed Grain and Relief Accounts under the administration of the Department of Mines and Resources, was written off and charged to Consolidated Fund, pursuant to Chapter 51, Statutes of 1927. There was also a write-down from non-active assets to Consolidated Fund of relief loans to the Province of Manitoba totalling \$801,897.02. These write-downs to Consolidated Fund constitute a reduction in non-active assets and necessarily appear in the form of credits to non-active account, leaving the net debt unchanged.

A further amount of \$139,360.88 appears in the Expenditure statement under the caption "Other Charges" and represents losses and concessions in respect of general land settlement loans under the New Brunswick 500 British Family Settlement Agreement.

THE CANADIAN NATIONAL RAILWAYS CAPITAL REVISION ACT, 1937

In April, 1937, Parliament passed The Canadian National Railways Capital Revision Act, 1937, authorizing certain adjustments in the accounts of the Railway and as between the Government and the Railway, which adjustments were designed mainly (1) to eliminate duplication of liabilities and losses between the published accounts of the Railway and those of the Dominion as shown in the Public Accounts; (2) to centralize the corporate stock control by the Dominion of all companies now included in the National Railway System through one company, namely, the Canadian National Railway Company; (3) to eliminate from the books of the Railway certain capital stocks determined by arbitration tribunals to be without value; and (4) to reflect the Government's position as the proprietor, and not merely as the creditor, of the National Railways System. The adjustments were made in the Railway's accounts as at January 1, 1937.

Under authority of this legislation, there was set up as part of the National Railways a new corporation entitled The Canadian National Railways Securities Trust. To this corporation were transferred all claims for indebtedness of the Railway to the Dominion (including collateral securities held in respect thereof), which had not been considered as active assets by the Dominion. In exchange therefor, the Securities Trust issued to the Minister of Finance to be held on behalf of the Dominion all of its capital stock having an initial stated value of \$270,037,437.88, representing the amount of loans made for capital purposes. In the books of the Railway and of the Dominion, this amount is now represented in the Dominion Government Proprietor's Equity as at January 1, 1937. Loans from the Dominion of \$373,823,120.38 which had been made to meet operating deficits were written off in the Railway's accounts and a corresponding reduction made in the Profit and Loss Balance. An amount of \$574,781,637.01 representing accrued interest unpaid by the Railway on loans from the Government was transferred to the Securities Trust. Of this amount \$530,832,597.67 representing the portion of said amount accrued on the Railway's books was written off and a corresponding reduction made in the Profit and Loss Balance. This interest had never been taken into the accounts of the Dominion. The only amounts carried on the Railway's books as loans from the Dominion are the amounts of such loans as are treated by the Dominion as active assets. Capital stocks carried on the Canadian National Railways System balance sheet at \$247,628,338.70 and indebtedness to the Government amounting to \$15,142,633.33, which had been found to be worthless by various arbitration tribunals when the constituent Companies were under private management, were cancelled and a corresponding reduction was made in the System's property

account. The Government transferred to the Canadian National Railway Company 180,000 shares of the outstanding capital stock of the Canadian Northern Railway Company having the par value of \$18,000,000 in exchange for 1,000,000 no par value shares of capital stock of the Canadian National Railway Company with an initial stated value of \$18,000,000. Other adjustments of minor importance were also made. As a result of all these adjustments it is now possible to consolidate the accounts of the Dominion and the Railway without involving duplication of liabilities.

The changes in so far as the Dominion's accounts were affected, resulted in a net credit of \$1,023,058.94 and are detailed in Appendix 27, page 111.

The Act also provided for the inclusion, as an appendix to the Public Accounts of Canada of a detailed statement showing the total assistance which has been granted in various forms to all railways. This is included as Appendix 28, page 112 to 153.

OVER-ALL DEFICIT OR INCREASE IN NET DEBT

If we add together Ordinary Expenditures, Special Expenditures, Operating Losses of and Non-active Advances to Government Owned Enterprises, Capital Expenditures and Write-down of Assets we find that the total expenditures of the Dominion Government during the fiscal year 1937-38 amounted to \$534,408,117.82. As total revenues including Special Receipts and various Miscellaneous Credits, aggregated \$516,692,749.46, the over-all deficit or increase in net debt during the year was \$17,715,368.36.

Total net debt of the Dominion as at the close of the fiscal year was \$3,101,667,570.25.

The increase of \$17,715,368.36 in the net debt during the fiscal year is accounted for as follows:—

PERCENTAGE DISTRIBUTION OF REVENUES AND EXPENDITURES, 1937-38

In the following table, an attempt is made to show the percentage distribution of revenues and expenditures for a number of important items of revenue and expenditure. Receipts from various taxes and other sources of revenue are shown as percentages both of total revenues and of total expenditures. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditures and of total revenues. The nature of the Dominion's accounting system and the method of classifying accounts make it impossible to achieve precise accuracy but the results are sufficiently accurate to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by several important services or obligations of government.

The proceeds of this loan were used for redeeming, in part, the unconverted portion of the 5½% Victory Bonds maturing on December 1, 1937.

The policy of selling three months Treasury Bills by public tender was continued during the year. The average interest cost of each issue varied from a high of 0.816% on November 15, 1937, to a low of 0.524% on March 15, 1938. On March 31, 1938, as at the close of the previous fiscal year, the total of Treasury Bills outstanding was \$150,000,000.

In January, 1938, an issue was made in London of £10,000,000, 3½ per cent Registered Stock, dated July 1st, 1938, and maturing July 1st, 1963. This issue was sold to the public at 98.50 to yield 3.34 per cent. The proceeds were used to redeem, in part, £7,658,471-18-11, 3 per cent stock, and £3,093,700, 3½ per cent Canadian Pacific Railway Land Grant Stock due July 1st, 1938. Conversion applications were accepted at the offering price from holders of the maturing issues. Cash subscriptions were payable in instalments and the instalments paid to March 31, 1938, amounting to \$8,987,869.98 appear in Contingent and Special Funds, Suspense Account.

POST OFFICE SAVINGS BANK

At the close of the fiscal year, the balance at the credit of depositors in the Post Office Savings Bank was \$22,587,233.09, an increase of \$707,639.96 as compared with the balance held on March 31, 1937. The deposits for the year exceeded withdrawals by \$275,203.68, and accrued interest was added in the amount of \$432,436.28. Gold held on March 31, 1938, for the account of the Post Office Savings Bank, as provided for by Section 47, Chapter 15, R.S.C. 1927 amounted to \$2,258,723.31 (valued on the basis of \$20.671834 per fine ounce).

INVESTMENTS

SINKING FUNDS

Investments on account of Sinking Funds of various sterling loans were made during the year to an amount of \$3,842,691.73. These investments were in Dominion of Canada sterling securities. The total of the investments at the credit of the Sinking Funds on March 31, 1938, was \$65,657,699.66.

ADVANCES TO NATIONAL HARBOURS BOARD

Advances for capital purposes, treated in the accounts as Active Assets, were made under statute to the Board as follows:—

Montreal Harbour.....	\$	996,960 40
Vancouver Harbour.....		1,223,545 30
	\$	2,220,505 70

There were also temporary loans made to the National Harbours Board in connection with Churchill Harbour and Prescott Elevator, amounting to \$21,000 and \$15,000, respectively, which were repaid before the close of the fiscal year.

DEPARTMENT OF FINANCE

CANADIAN FARM LOAN BOARD

During the year the Government purchased \$281,129.00 of the Capital Stock of the Canadian Farm Loan Board, and \$3,550,000.00 of its $3\frac{1}{2}\%$ bonds due January 2, 1960. As reported above, \$10,135.00 of the Capital Stock of the Board held by the Government was cancelled. During the year also, \$6,111.23 was advanced to the Board on account of losses on operations of the Board in respect of loans made under the provisions of Part II of the Canadian Farm Loan Act. Under authority of The Canadian Fisherman's Loan Act, Chap. 52, Acts of 1935, \$10,000.00 was advanced to the Board as initial capital, and \$772.00 as subscriptions to Capital Stock. As at March 31, 1938, the Board reported outstanding loans to farmers totalling \$31,532,058.23, secured by first mortgages in the amount of \$28,184,642.01, and by second mortgages in the amount of \$3,347,416.22. Real estate held for sale amounted to \$242,538.66, and agreements for sale were carried at \$372,345.56. The Board also reported loans to fishermen in the amount of \$18,869.84 outstanding as at March 31, 1938.

SOLDIER AND GENERAL LAND SETTLEMENT

The aggregate of active loans outstanding on this account decreased during the year by \$245,271.65. This left a balance outstanding at the close of the year of \$58,885,772.06, of which \$42,232,502.01 is carried as an active asset and the remaining \$16,653,270.05 as a non-active asset.

A payment of \$571,833.46 was made to the Province of New Brunswick in settlement of the Dominion's liability under the New Brunswick 500 British Family Settlement Agreement as provided for by Vote 443 of the further supplementary estimates. An amount of \$429,099.28 was set up as an Active Asset representing principal owing by Settlers under the Agreement, and as already stated, an amount of \$139,360.88 was set up as a Non-active Asset representing ascertained losses and concessions granted under the Agreement. The remaining amount of the aforesaid payment, \$3,373.30, represented an adjustment for losses on account of interest.

POST-WAR HOUSING LOANS

During the fiscal year, the Provincial Governments reduced their indebtedness to the Dominion, on account of Housing Loans made during the early post-war period, by \$1,422,387.72, as follows:—

Province of Prince Edward Island.....	\$ 1,000 00
Province of Nova Scotia.....	70,000 00
Province of New Brunswick.....	588,700 00
Province of Quebec.....	730,687 72
Province of Manitoba.....	32,000 00
	<hr/>
	\$ 1,422,387 72

The balance on account of such loans outstanding as at March 31, 1938 was \$3,308,000.00, accounted for as follows:—

Province of Prince Edward Island.....	29,500 00
Province of Nova Scotia.....	537,000 00
Province of Manitoba.....	1,040,000 00
Province of British Columbia.....	1,701,500 00
	<hr/>
	\$ 3,308,000 00

It will be noted that during the year, the Provinces of New Brunswick and Quebec paid off their outstanding indebtedness on account of post-war Housing Loans, the former making its repayment simultaneously with the Dominion's payment to the Province in respect of the New Brunswick 500 British Family Settlement Agreement.

DOMINION HOUSING ACT, 1935

AND

NATIONAL HOUSING ACT, 1938

As at November 30, 1938, loans approved under Part I of the National Housing Act, and under its predecessor, the Dominion Housing Act, numbered 4,484 for an aggregate value of \$26,436,628. Of this amount, \$21,155,655 represented loans approved under Dominion Housing Act (October, 1935—July, 1938, inclusive), and \$5,280,973 represented loans approved (August—November 30, 1938, inclusive), under the National Housing Act. Under the present Act, the Dominion agrees to advance 25 per cent of the amount of each loan approved; under the original Act the Dominion's contribution was 20 per cent of the lending value of the property on which a loan was made. To November 30, 1938, the Dominion's share of all loans approved amounted to \$6,866,135, of which \$4,623,662 had been disbursed.

To the close of the fiscal year on March 31, 1938, 2,403 loans aggregating \$15,023,854 had been approved under the Dominion Housing Act. Of this amount, the Dominion's share was \$3,919,627, of which \$2,809,736 had actually been disbursed. Total receipts in respect of such loans to the same date amounted to \$106,192.69, of which \$50,969.25 represented interest, and \$55,223.44 repayment of principal, leaving a net capital investment by the Dominion on March 31, 1938 of \$2,754,512.56.

THE CANADIAN BROADCASTING CORPORATION

Under authority of The Canadian Broadcasting Act, 1936, (Chapter 24, Statutes of 1936), a loan of \$500,000 was advanced to the Corporation for the construction of transmitting stations at Montreal and Toronto. This loan bears interest at the rate of $3\frac{1}{2}\%$ per annum and is carried as an active asset.

THE CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS, LIMITED

Under authority of Vote 362 included in the Appropriation Act, No. 3, 1937, a loan of \$450,000, bearing interest at the rate of 3% per annum, was made to the above Company to provide for working capital requirements.

LOANS TO PROVINCES

Under the authority of Orders-in-Council passed pursuant to The Unemployment Relief and Assistance Act, 1936, and The Unemployment and Agricultural Assistance Act, 1937, loans secured by Provincial Treasury Bills, bearing interest at the rate of 3% per annum, were made to the four Western Provinces for relief purposes. CANADIAN NATIONAL RAILWAYS

In addition to the payment of \$42,345,867.99 representing the net income deficit of the Canadian National Railways for the calendar year 1937, which is included in Expenditures under Government Owned Enterprises, the Government advanced \$11,035,032.61 to the Railway Company for capital purposes and for the retirement of miscellaneous obligations. This amount, together with advances of \$11,357,710 made for similar purposes in the years 1932 to 1936, were repaid to the amount of \$50,000,000 from the proceeds of a Dominion guaranteed railway bond issue, leaving a balance of \$2,392,742.61 carried on the books of the Dominion as an active asset.

The Government also advanced during the fiscal year \$3,390,358.07 for the construction of the branch line from Semeterre to Rouyn and \$1,500,000 for the purchase by the Canadian National Railways of capital stock of the Trans-Canada Air Lines. In addition, a temporary loan of \$7,040,253.92 was made on account of 1938 operations pending the passing of the 1938 Budget of the Railway Company. The Company repaid \$394,530.88 on account of loans for betterment or repair of railway equipment.

CANADIAN PACIFIC RAILWAY COMPANY

During the fiscal year railway equipment in the amount of \$89,500.00 was purchased by the Government. This equipment was in turn leased to the Canadian Pacific Railway Company under a hire-purchase agreement.

The Company repaid \$116,940.00 and \$100,000.00 on account of loans made for Special Works Program and loans made for betterment or repair of railway equipment respectively.

FOREIGN GOVERNMENTS

During the year the Government of Roumania paid \$431,451.00 interest on its 4 per cent bonds held by the Dominion, representing 45 per cent of the interest coupons due April 1, 1937 and October 1, 1937. In addition, Government of Roumania 4½ per cent Bonds to the amount of \$359,542.40 plus ten cents in cash were received covering 75 per cent of the instalment of interest due October 1, 1933 not paid in cash. These payments were made in accordance with the arrangement made with the Government of Roumania by the Council of Foreign Bondholders.

No payments either on account of interest or principal were received during the fiscal year from the Government of Greece in respect of its indebtedness to the Dominion.

TOTAL DECREASE IN ACTIVE INVESTMENTS

As a result of the transactions outlined above, the total active investments of the Dominion Government decreased during the year by a net amount of \$360,837.90.

HOW INCREASE IN NET DEBT WAS FINANCED

The table which follows shows how the increase in net debt during the fiscal year was financed. This increase in net debt was \$17,715,368.36. As some maturing bond issues were paid off in part by cash from the Treasury, the total principal amount of issues (including Treasury Bills) which matured or were called exceeded the net proceeds of new security issues (including Treasury Bills) which were sold during the year. The amount of this excess was \$34,785,645.25. Adding this amount to the increase in net debt gives a total of \$52,501,013.61 which had to be financed during the year.

Of the increase in net debt, the sum of \$4,568,194.09 was accounted for by the annual charge for amortizing bond discounts and commissions involving an expenditure which is offset by a reduction in an active asset rather than by an outlay of cash. The funds necessary to provide the remaining amount of

GUARANTEED SECURITIES

CANADIAN NATIONAL RAILWAY COMPANY

An issue of \$50,000,000 Canadian National Railway Company bonds was guaranteed as to principal and interest under the Canadian National Railways Refunding Act, 1935, and the Canadian National Railways Financing and Guarantee Act, 1937. The issue was comprised of \$20,000,000 2 per cent four-year bonds dated January 15, 1938, and \$30,000,000 3 per cent thirteen-year bonds dated December 15, 1937. The issue was offered to the public at 99.25 per cent for the four-year bonds and 97.00 per cent for the thirteen-year bonds, yielding 2.20 per cent and 3.29 per cent, respectively. The proceeds of the loan were used to pay off, in part, temporary loans obtained from the Government for capital purposes and for the retirement of miscellaneous obligations.

GRAIN MARKETING

Under the terms of an Order in Council dated July 23, 1937, passed pursuant to The Canadian Wheat Board Act, a price of 17½ cents per bushel, basis No. 1 Northern, Fort William was fixed as the basic price at which The Canadian Wheat Board was willing to buy wheat of the 1937 crop from producers thereof, provided that wheat was to be purchased by the Board at this price only in the event that the closing market price for wheat on the Winnipeg Grain Exchange dropped below 90 cents per bushel, basis No. 1 Northern, Fort William. As the price of wheat prevailing during the entire crop year 1937-38 was higher than the fixed basic price, the Board did not purchase any wheat of the 1937 crop. At the close of the fiscal year, the Board had outstanding bank loans guaranteed by the Dominion in the amount of \$184,269.15, representing advances obtained to finance the marketing of prior years' crops.

In 1935, Canadian Co-operative Wheat Producers, Limited purchased oats for account of the Province of Saskatchewan with the proceeds of bank loans guaranteed by the Dominion. As at March 31, 1938, the amount of such guaranteed bank loans outstanding was \$168,909.02.

The guarantee of the Dominion to the Winnipeg Grain and Produce Clearing Association Limited arising out of transactions and trades made by the Canadian Wheat Board continues. No liability in connection with this guarantee accrues from day to day, as margin deposits are made by the Board to the Association daily.

SEED GRAIN LOANS

Under the terms of The Saskatchewan Seed Grain Loans Guarantee Act, 1936, the Dominion guaranteed the principal and interest of loans made in Saskatchewan by chartered banks for seed grain assistance to farmers during the crop year, 1936. Under provincial statutes, the Province of Saskatchewan guaranteed these loans. The province is not required to fulfil its guarantee until three years after the date of any loan and the Dominion's liability is only to the amount that the Province is unable to fulfil its guarantee. The principal amount of the loans guaranteed amounted to \$2,555,112.76.

A similar arrangement was made under the terms of The Seed Grain Loans Guarantee Act, 1937, to provide for seed grain assistance to farmers in the Provinces of Manitoba, Saskatchewan and Alberta during the crop year 1937. Pending the submission of definitive documents, no formal guarantee had been given by the Dominion at the close of the fiscal year. The maximum amount to be guaranteed authorized by statute was \$8,950,000, allocated between the three provinces as follows: Manitoba, \$750,000; Saskatchewan, \$6,600,000; and Alberta, \$1,600,000.

DOMINION HOUSING ACT, 1935

Under the Dominion Housing Act, 1935, the Dominion accepts certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities. Under this Act the Minister of Finance was authorized to enter into contracts to join with lending institutions or local authorities in the making of loans to assist in the building of houses. The said Act provided that any loan should not be less than seventy per cent and not more than eighty per cent of the cost of construction of the house or its appraised value, whichever is the lesser, and that the loan should be secured by a first mortgage or hypothec. The amount advanced by the Minister was not to exceed twenty per cent of the cost of construction of the house or its appraised value, whichever is the lesser. The borrower pays interest at five per cent per annum on the loan and the Dominion receives interest at three per cent on the amount of the loan advanced by it.

The manner in which losses in respect of any loan are to be borne by the Dominion and the lending institution is fixed by the contract. Generally, the Dominion bears two-thirds of the loss, if at the time the loss occurs the amount owing under the mortgage for principal, interest and other charges due on the mortgage account is more than the amount advanced by the lending institution, and one-third of the loss if at the time the loss occurs the amount so owing under the mortgage is less than the amount advanced by the lending institution. In the case of small loans (that is, for amounts of \$1,000 or less or, in the case of a multiple family dwelling, \$700 or less per habitable room), the share of the loss to be borne by the Dominion is not more than eighty per cent and not less than seventy per cent of the loss. The Minister was authorized under the Act to make advances and pay salaries and other necessary expenses to the extent of \$10,000,000.

The gross amount of advances made by the Minister up to and including March 31, 1938, was \$2,809,736.00. No losses had been realized by the Dominion as of that date.

HOME IMPROVEMENT LOANS

Under the terms of The Home Improvement Loans Guarantee Act, 1937, \$14,526,455.32 had been loaned up to March 31, 1938, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans is limited to 15 per cent of the aggregate of such loans made by each lending institution. As eleven claims for losses in the amount of \$2,577.26, were paid during the year of which \$100.00 has been recovered, the contingent liability of the Government at March 31, 1938, was \$2,176,391.04.

TOTAL GUARANTEED OBLIGATIONS OUTSTANDING

At the close of the fiscal year outstanding guarantees of the Dominion of Canada (more fully listed in Schedule W) were as follows:—

OLD AGE PENSIONS AND PENSIONS FOR BLIND PERSONS

During the fiscal year 1937-38, Old Age Pensions were being paid in all nine provinces and in the Northwest Territories. The Act was amended by Parliament in 1937 to provide for the payment of pensions to blind persons, under certain conditions, and before the close of the year an agreement had been made with each province for this purpose. Appendix No. 26, page 110, shows by provinces the number of pensioners, average monthly pension, Dominion Government's contribution for the fiscal year and the total contribution by the Dominion Government from the inception of the Act.

Respectfully submitted,

W. C. CLARK,
Deputy Minister of Finance.

*Relief Projects, Grants in Aid to Provinces and other works voted as Special Supplementary Estimates, and Western Drought Area Relief authorized by Governor General's Warrants.

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In this year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan Flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund, and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises were also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include Non-active loans and write-down of assets, in addition to all other expenditures.

NOTE.—The above table is based on the classification of accounts adopted for the fiscal year 1936 and appropriate adjustments for the years 1930-35 were made for comparative purposes. Instead of showing Surplus or Deficit in Consolidated Fund as in the preceding table, the difference between Total Revenues and Total Disbursements, in other words, the increase in Net Debt, is shown in the final column.

*Includes net credit of \$1,023,058.94 resulting from Canadian National Railways Capital Revision Act, 1937.

(a) Difference between conversion of pound sterling at \$4.86½ and at \$4.86 charged to Consolidated Fund of Canada.

(b) Adjustments to loans, under authority of the Canadian National Railways Capital Revision Act of 1937—Capital expenditures on wharves (\$1,006,527.61) transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway (\$660,369.96) transferred to the Department of Transport.

(c) This amount represents losses in operation of \$373,823,120.38 and a loss of \$711,732.21 during 1937 due to line abandonment- in respect of which the Government has not made cash reimbursements to the Railway.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government—Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) (i) This amount \$2,853,912 was originally due February 1st, 1884, and \$4,527,000 on November 7th, 1888. Later, the aggregate of these two amounts, \$7,380,912, was consolidated with the construction loan of \$21,650,700; the security was rearranged and the whole was made payable on May 1st, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,703,014 acres of a land grant valued at \$1.50 per acre, amounting to \$10,189,531.33. This amount included interest of \$308,609.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Public Accounts of Canada under assets. Miscellaneous Current Accounts, Schedule "G".

Appendix No. 28M

CALCULATION OF ACCRUED INTEREST ON LOANS

NOTE.—This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest however was never taken into the accounts of the Dominion, but interest amounting to \$550,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

DEPARTMENT OF FINANCE,
OTTAWA, JANUARY 18, 1940

The Honourable J. L. RALSTON,
Minister of Finance.

SIR,—I have the honour to submit to you the Public Accounts of the Government of the Dominion of Canada for the fiscal year ended March 31, 1939.

BALANCE SHEET

Certain minor changes have been made in the form of presentation of the Balance Sheet in order to facilitate analysis of the Public Debt of Canada. On the liability side a new heading has been set up entitled Floating Debt. Under this heading are shown Funded Debt Matured and Outstanding, Interest Due and Outstanding, Stock Payable on Demand, and Outstanding Cheques. Sinking Funds, formerly shown as a deduction from the Funded Debt on the liability side are now shown as an asset. In former years the net liability of the Dominion in respect of Provincial Debt Accounts has been shown on the liability side of the balance sheet. This treatment has now been changed to show the gross liability on the liability side and the deductions applicable thereto as an asset. All these changes are incorporated in the Balance Sheet presented for the Dominion as at March 31, 1939.

CLASSIFICATION OF ACCOUNTS

The broad classification of the public accounts, adopted in 1935-36, deals on the Revenue side with Ordinary Revenues, Special Receipts and Credits and Other Receipts and Credits; and on the Expenditure side with Ordinary Expenditure, Special Expenditures, Operating Deficits of, and Non-active Advances to Government Owned Enterprises, Capital Expenditures and Write-down of Assets.

ORDINARY RECEIPTS AND EXPENDITURES

The receipts for the year on Ordinary Account amounted to \$498,016,-706.40, and the expenditures on the same account to \$413,032,202.44, resulting in a surplus on Ordinary Account of \$84,984,503.96.

SPECIAL RECEIPTS AND EXPENDITURES

In addition to Ordinary Receipts there were Miscellaneous Receipts and Credits of \$1,255,962.02, of which \$1,231,950.55 represented refunds and credits of previous years' relief expenditures.

Special Expenditures aggregated \$71,895,406.89. Of this amount \$9,145,-556.33 represented expenditures for Western drought area relief, and \$37,749,-850.56 was accounted for by expenditures on relief, including special works and projects and grants-in-aid to provinces. The balance of \$25,000,000 was an expenditure required to set up a reserve to provide for estimated losses on wheat marketing guarantees applicable to the fiscal year 1938-39.

A statement of Special Receipts and Special Expenditures follows:—

Miscellaneous Receipts and Credits—

Unemployment Relief Acts 1930 to 1935, inclusive—

Refunds of expenditure of previous years.....\$ 7,343 92

Relief Projects and other Works, including Western Drought Area Relief—

Canadian Wheat Board—

To provide a reserve against estimated losses on Wheat Marketing Guarantees applicable to the fiscal year, 1938-39..... 25,000,000 00

\$ 71,895,406 89

Excess of Special Expenditures over Special Receipts and Credits.....\$ 70,639,444 87

GOVERNMENT OWNED ENTERPRISES

Expenditures under this heading were made to the amount of \$58,943,494.16, of which \$55,658,305.71 was charged to Consolidated Fund and the balance to Loans and Advances Non-active. The amount charged to Consolidated Fund was almost wholly accounted for by the net income deficit of the Canadian National Railways for the calendar year 1938. This deficit amounted to \$54,314,195.97, of which \$48,193,792.62 was attributable to the System exclusive of Eastern Lines. The deficit on account of Eastern Lines amounted to \$6,120,403.35, and on account of the Prince Edward Island Car Ferry and Terminals to \$387,643.58. In addition there were payments to the Trans-Canada Air Lines of \$818,025.86, and to the National Harbours Board of \$138,440.30, representing operating deficits incurred during the calendar year 1938. The operating deficit of the National Harbours Board is accounted for as follows: Churchill Harbour, \$55,009.92; Quebec Harbour, \$75,983.20, and Prescott Elevator, \$7,447.18.

Non-active Loans and Advances to Government Owned Enterprises totalled \$3,285,188.45. Of this total, the National Harbours Board accounted for \$3,278,923.68, allocated as follows: Chicoutimi Harbour, for reconstruction and capital expenditure, \$42,059.68; Halifax Harbour, for retirement of maturing debentures, \$1,700,000; Saint John Harbour, \$391,078.50, of which \$60,256.94 was for retirement of maturing debentures and \$330,821.56 for reconstruction and capital expenditures; Three Rivers Harbour, for reconstruction and capital expenditures, \$186,172.48; Quebec Harbour, \$601,613.02, of which \$400,000 was for retirement of maturing debentures and \$201,613.02 for reconstruction and capital expenditures; and Montreal Harbour (Jacques Cartier Bridge), \$358,000.00, being advances for guaranteed interest. The balance of \$6,264.77 represents an advance to the Canadian National (West Indies) Steamships Limited, applied in payment of capital expenditures for the calendar year 1938.

CAPITAL EXPENDITURES

The following outlays were made during the year and charged to Capital Account:—

Public Works, page 8.....	\$ 5,397,927 83
Railways, page 8.....	26,348 62
	<u>\$ 5,424,276 45</u>

The following refunds of expenditures made in previous fiscal years were credited to Capital Account:—

Public Works, page 9.....	\$ 3,412 63
Railways, page 9.....	4,469 64
Canals, page 9.....	32,913 06
	<u>\$ 40,795 33</u>

The result was a net charge to Capital Account of \$5,383,481.12.

WRITE-DOWN OF ASSETS

Active assets written down to Consolidated Fund during the year amounted to \$909,828.04. This amount includes \$895,264.66 of loans for Soldier and General Land Settlement purposes written off under authority of the Soldier Settlement Act and amendments thereto of which \$682,720.79 represented adjustments made pursuant to the Farmers' Creditors Arrangement Act. A small amount of \$283.38 was written off Assisted Passage Loans advanced under the Empire Settlement Scheme. Capital Stock of the Canadian Farm Loan Board of \$14,280.00 was also cancelled. This amount includes \$6,510.00 of subscriptions written-down as a result of adjustments made under the Farmers' Creditors Arrangement Act.

In addition to the above, the sum of \$17,700.47 representing the established losses during the year in Seed Grain and Relief Accounts under the administration of the Department of Mines and Resources, was written off and charged to Consolidated Fund, pursuant to Chapter 51, Statutes of 1927. There was also a write-down of \$127,351.56 to Consolidated Fund from General Land Settlement non-active account, set up in the fiscal year 1937-38 in connection with losses and concessions in respect of loans under the New Brunswick 500 British Family Settlement Agreement. A small amount of \$1.00 was written down to Consolidated Fund from Soldier Settlement (Non-active account) representing an adjustment of land revaluation. An amount of \$2,712,837.14 was written down from Canadian National Railways Securities Trust Stock due to line abandonments during the calendar year 1938. These write-downs to Consolidated Fund from non-active account, aggregating \$2,857,890.17, constitute a reduction in non-active assets and necessarily appear in the form of credits to non-active accounts, leaving the net debt unchanged.

OVER-ALL DEFICIT OR INCREASE IN NET DEBT

The sum of Ordinary Expenditures, Special Expenditures, Operating Losses of and Non-active Advances to Government Owned Enterprises, Capital Expenditures and Write-down of Assets, gives the total expenditures of the Dominion Government during the fiscal year, 1938-39, amounting to \$553,063,-098.15. As total revenues including Special Receipts and various Miscellaneous Credits aggregated \$502,171,353.92, the over-all deficit or increase in net debt during the year was \$50,891,744.23.

Total net debt of the Dominion as at the close of the fiscal year was \$3,152,559,314.48.

The increase of \$50,891,744.23 in the net debt during the fiscal year is accounted for as follows:—

PERCENTAGE DISTRIBUTION OF REVENUES AND EXPENDITURES, 1938-39

The following table shows the percentage distribution of revenues and expenditures for a number of important items of revenue and expenditure. Receipts from various taxes and other sources of revenue are shown as percentages both of total revenues and of total expenditures. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditures and of total revenues. The nature of the Dominion's accounting system and the method of classifying accounts make it impossible to achieve precise accuracy but the results are sufficiently accurate to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by several important services or obligations of government.

LOANS

During the year, new financing took place in the New York and domestic markets to meet maturing obligations and to provide new cash for general purposes of the Government.

On June 1, 1938, a domestic bond issue in two maturities was offered in conversion of \$90,000,000 2 per cent bonds due October 1, 1938 together with cash subscriptions of \$50,000,000. The outstanding bonds were converted to the extent of \$89,825,000. The details of the issue were as follows:—

6-Year 2% bonds maturing June 1, 1944, priced at 99.375 per cent and accrued interest to yield 2.11%.....	\$ 90,625,000
20-Year 3% bonds maturing June 1, 1958, priced at 99.00 per cent and accrued interest to yield 3.07%.....	49,200,000

On July 1, 1938, the 4% School Lands Debentures amounting to \$33,293,-470.85 held by the Provinces of Manitoba, Saskatchewan and Alberta, were renewed for a further period of one year at the same interest rate.

Details of the issue of £10,000,000 3½% Registered Stock, 1958-63 made in January, 1938 although dated July 1, 1938, will be found in the Public Accounts for the fiscal year ended March 31, 1938.

In order to provide for the redemption of \$40,000,000 2% Notes due on January 1, 1939, in New York, there was issued in November, \$40,000,000, thirty-year 3% bonds due November 15, 1968. This issue was sold to a New York syndicate of fifty-five financial houses, headed by Morgan Stanley and Company, Incorporated, at 95.25 per cent or a cost basis of 3.25%.

There was sold to the Chase National Bank of the City of New York and a group of associated banks, \$20,000,000 Twenty-seven months 1½% Notes dated February 1, 1939 and maturing May 1, 1941. The notes were sold at 99.75 per cent, a cost basis of approximately 1.36%. The proceeds of the issue were used for general purposes, among others, for the purpose of supplying the Government with United States funds to enable it to make temporary loans, or to reimburse the Government in part for temporary loans made, to the Canadian National Railway Company for the purpose of redeeming certain obligations of the Railway Company that matured during January and February, 1939. Some of these obligations were payable in London and some were payable optionally in New York, London or Canada.

The sale of three months Treasury Bills by public tender, twice monthly, was continued during the fiscal year. The average interest cost of each issue varied from a high of 0.760% on September 30, 1938, to a low of 0.465% on June 15, 1938. On March 31, 1939, the amount of Treasury Bills outstanding was \$155,000,000, an increase of \$5,000,000 over that outstanding at the close of the previous fiscal year.

POST OFFICE SAVINGS BANK

At the close of the fiscal year, the balance at the credit of depositors in the Post Office Savings Bank was \$23,045,575.64, an increase of \$458,342.55 as compared with the balance held on March 31, 1938. The deposits for the year exceeded withdrawals by \$12,456.34, and accrued interest was added in the amount of \$445,886.21. Gold held on March 31, 1939, for the account of the Post Office Savings Bank, as provided for by Section 47, Chapter 15, R.S.C. 1927 amounted to \$2,304,557.56 (valued on the basis of \$20.671834 per fine ounce).

INVESTMENTS

SINKING FUNDS

Investments on account of Sinking Funds of various sterling loans were made during the year to an amount of \$4,335,920.75. These investments were in Dominion of Canada sterling securities. The total of the investments at the credit of the Sinking Funds on March 31, 1939, was \$69,993,620.41.

Province of Nova Scotia.....	\$	80,000 00
Province of Manitoba.....		25,000 00
	\$	105,000 00

The balance on account of such loans outstanding as at March 31, 1939 was \$3,203,000.00 accounted for as follows:—

Province of Prince Edward Island.....	\$	29,500 00
Province of Nova Scotia.....		457,000 00
Province of Manitoba.....		1,015,000 00
Province of British Columbia.....		1,701,500 00
	\$	3,203,000 00

DOMINION HOUSING ACT, 1935 AND NATIONAL HOUSING ACT, 1938

To the close of the fiscal year on March 31, 1939, 5,123 loans aggregating \$30,628,894, had been approved under the National Housing Act and under its predecessor, the Dominion Housing Act. Of this amount, the Dominion's share was \$7,914,201, of which \$5,588,276 had actually been disbursed.

Total receipts in respect of such loans to March 31, 1939, amounted to \$325,996.14, of which \$149,674.41 represented interest and \$176,321.73 repayment of principal, leaving a net capital investment by the Dominion on March 31, 1939, of \$5,411,954.27.

As at September 30, 1939, loans approved under Part I of the National Housing Act, and under its predecessor, the Dominion Housing Act, numbered 8,176 for an aggregate value of \$43,802,868. Of this amount \$21,155,655 represented loans approved under Dominion Housing Act (October, 1935–July, 1938, inclusive) and \$22,647,213 represented loans approved (August, 1938–September, 1939, inclusive) under the National Housing Act.

To September 30, 1939, the Dominion's share of all loans approved amounted to \$11,207,695, of which \$7,422,049 has been disbursed.

THE CANADIAN BROADCASTING CORPORATION

During the year The Canadian Broadcasting Corporation repaid \$50,000 on account of a loan of \$500,000 advanced during the previous year, leaving a balance of \$450,000 outstanding at March 31, 1939. This loan bears interest at the rate of $3\frac{1}{2}\%$ per annum and is carried as an active asset.

BANK OF CANADA CAPITAL STOCK

The cost of the Government's investment in the capital stock of the Bank of Canada increased by \$820,000 during the year. Under the provisions of the 1938 amendment to the Bank of Canada Act the Government in acquiring all the capital stock of the Bank was required to reimburse the Bank the amount of \$920,000 paid to the holders of Class "A" shares, being the difference between the price of \$59.20 paid to the holders of said shares and their par value of \$50. The Government's holdings of Class "B" shares in the amount of \$5,100,000 were paid off and 100,000 new shares of \$50 par value were purchased.

MUNICIPAL IMPROVEMENTS ASSISTANCE ACT, 1938

Under the Municipal Improvements Assistance Act, 1938, the Government approved loans prior to March 31, 1939, amounting to \$3,142,667.53 to municipalities to enable them to finance the construction of municipal self-liquidating projects. As at March 31, 1939, the amount actually paid out on such loans was \$815,087.60. These loans bear interest at the rate of 2% per annum and are amortized over a period not longer than the estimated useful life of the project. The province in which the municipality is located is required to guarantee the payments of interest on and amortization of any such loan.

LOANS TO PROVINCES

Under the authority of Orders-in-Council passed pursuant to The Unemployment and Agricultural Assistance Acts of 1937 and 1938, loans secured by Provincial Treasury Bills, bearing interest at the rate of 3% per annum, were made to the Provinces of Manitoba and Saskatchewan for relief purposes. OLD AGE PENSIONS AND PENSIONS FOR BLIND PERSONS

During the fiscal year 1938-39, Old Age Pensions and Pensions for Blind Persons were paid, in the nine provinces and in the Northwest Territories. Appendix No. 25, page 109, shows by provinces the number of pensioners, average monthly pension, Dominion Government's contributions for the fiscal year and the total contributions by the Dominion Government from the inception of the Act.

ASSISTANCE TO RAILWAYS

As required by Sec. 24 of the Canadian National Railways Capital Revision Act, 1937, a detailed statement showing total assistance granted in various forms to all Railways was included as an appendix to the Public Accounts of

Canada for the fiscal year 1937-38. This statement has been revised to March 31, 1939 and is included in the Public Accounts for the current year as Appendix No. 26.

GUARANTEED SECURITIES

CANADIAN NATIONAL RAILWAY COMPANY

An issue of \$50,000,000 Canadian National Railway Company bonds guaranteed by the Dominion was made in January, 1939. The issue was comprised of \$15,000,000, 2½ per cent, seven-year bonds due January 15, 1946, and \$35,000,000 3 per cent, twenty-year bonds due January 15, 1959. The issue was offered to the public at 99.00 per cent for the seven-year bonds and 97.25 per cent for the twenty-year bonds, yielding 2.40 per cent and 3.19 per cent respectively. The proceeds of the loan were used to pay off, in part, temporary loans obtained from the Government for capital purposes and for the retirement of matured obligations.

GRAIN MARKETING

Under the terms of an Order-in-Council, dated August 5, 1938, passed pursuant to The Canadian Wheat Board Act, a price of 80 cents per bushel, basis No. 1 Northern, Fort William, was fixed as the basic price at which the Canadian Wheat Board was willing to pay for all wheat of the 1938 crop delivered to the Board by producers thereof. The Board's operations in respect of the 1938 crop were financed by loans obtained from a group of chartered banks under guarantee of the Dominion Government. The amount of the guaranteed bank loans outstanding at March 31, 1939, was \$61,155,470.03.

The guarantee of the Dominion to the Winnipeg Grain and Produce Clearing Association, Limited, arising out of transactions and trades made by the Canadian Wheat Board continues. No liability in connection with this guarantee accrues from day to day, as margin deposits are made by the Board to the Association daily.

In 1935, the Canadian Co-operative Wheat Producers, Limited, purchased oats for account of the Province of Saskatchewan with the proceeds of bank loans guaranteed by the Dominion. As at March 31, 1939, the amount of such guaranteed bank loans outstanding was \$173,664.81. Subsequent to the end of the fiscal year, these bank loans were paid off with no liability accruing to the Dominion Government.

SEED GRAIN LOANS

Under the terms of The Seed Grain Loans Guarantee Act, 1937, the Dominion guaranteed the principal and interest of loans made in Manitoba, Saskatchewan and Alberta by chartered banks for seed grain assistance to farmers during the crop year 1937. Under provincial statutes the loans in a province are guaranteed in the first instance by the government of that province. The province is not required to fulfil its guarantee until three years after the date of any loan, and the Dominion's liability is only to the amount that the province is unable to fulfil its guarantee. The principal amount of loans authorized to be guaranteed was \$8,950,000, and the amount outstanding at July 31, 1939, was \$6,998,820.68, divided as follows—Manitoba \$89,425.35; Saskatchewan \$6,359,144.23; and Alberta \$550,251.10.

A similar arrangement was made under the terms of The Seed Grain Loans Guarantee Act, 1938, to provide for seed grain assistance to farmers in the provinces of Saskatchewan and Alberta during the crop year 1938. The principal amount authorized to be guaranteed was \$14,500,000 with respect to Saskatchewan, and \$1,900,000 with respect to Alberta. The principal amount guaranteed in the case of Alberta was \$1,089,482.84. The principal amount guaranteed in the case of Saskatchewan has not yet been determined, but a general guarantee has been executed for an amount not exceeding the maximum amount authorized.

NATIONAL HOUSING ACT

Under the Dominion Housing Act, 1935, and the National Housing Act, 1938, the Dominion has accepted and is accepting certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities.

The manner in which losses in respect of any loan are to be borne by the Dominion and the lending institution is fixed by the contract. The general principle is that the Dominion bears two-thirds of the loss if at the time the loss is sustained the principal amount of the loan repaid, less any other amounts due, is equal to or less than the amount advanced by the Dominion and one-third of the loss if at the time the loss is sustained the principal amount repaid, less any other amounts due, is more than the amount advanced by the Dominion. In the case of small loans (that is for amounts not in excess of \$4,000 in the case of a single dwelling place or not in excess of \$700 per habitable room in the case of a multiple family dwelling), the share of the loss to be borne by the Dominion is not more than 80% and not less than 50% of the loss. The above provisions apply to loans made under both the present National Housing Act and its predecessor the Dominion Housing Act. Under the National Housing Act a new provision has been added to encourage the making of small loans in such small or remote communities and in such districts of other communities as may be designated by the Minister of Finance in any contract. In respect of such loans, the Dominion has agreed in contracts with certain lending institutions to pay losses sustained by any such lending institution up to certain amounts determined by the contract which are not less than 7% and do not exceed 25% of the total amount of such loans made in such areas by the lending institution.

The total amount of loans approved at March 31, 1939, under the Dominion Housing Act, 1935, and the National Housing Act, 1938, was \$30,628,894. No losses had been realized by the Dominion as of that date.

HOME IMPROVEMENT LOANS

Under the terms of The Home Improvement Loans Guarantee Act, 1937, \$26,228,621.75 had been loaned up to March 31, 1939, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans is limited to 15% of the aggregate of such loans made by each lending institution. As seventy-six claims for losses in the amount of \$19,426.16, were paid to March 31, 1939, of which \$259.16 has been recovered, the contingent liability of the Government at that date was \$3,914,867.10.

* Relief Projects, Grants in Aid to Provinces and other works voted as Special Supplementary Estimates, and Western Drought Area Relief authorized by Governor General's Warrants.

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In this year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan Flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund, and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises were also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include non-active loans and write-down of assets, in addition to all other expenditures.

† Reserve against estimated losses on wheat marketing guarantees applicable to the fiscal year 1938-39.

NOTE.—The above table is based on the classification of accounts adopted for the fiscal year 1936 and appropriate adjustments for the years 1930-35 were made for comparative purposes. Instead of showing Surplus or Deficit in Consolidated Fund as in the preceding table, the difference between Total Revenues and Total Disbursements, in other words, the increase in Net Debt, is shown in the final column.

* Includes net credit of \$1,023,058.94 resulting from Canadian National Railways Capital Revision Act, 1937.

26M	This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and predecessor companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest however was never taken into the accounts of the Dominion but interest amounting to \$530,832,567.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$74,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.		

(a) Amount paid by Dominion in acquiring 600,000 shares of the capital stock of the Canadian Northern Railway Company.

(b) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company (See detailed explanation in Appendix 26F).

(c) Of this amount \$7,380,912 was not used for capital expenditures but represented the balance due by the Company under agreement made in 1883 for the creation of a fund to be held by the Government to guarantee a dividend of 3 per cent per annum for ten years on the Company's outstanding stock in an endeavour to assist in financing construction through the sale of additional stock. The amount on deposit with the Government was, at all times, more than sufficient to meet the payments which, under the agreement, the Government undertook to make. The obligation of the Company was fully discharged in 1886, some years in advance of its due date (See Note E to Appendix 26E, Page 141).

(a) Difference between conversion of pound sterling at \$4.86½ and at \$4.86 charged to Consolidated Fund of Canada.

(b) Adjustments to loans, under authority of the Canadian National Railways Capital Revision Act of 1937—Capital expenditures on wharves (\$1,006,527.61) transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway (\$590,369.96) transferred to the Department of Transport.

(c) This amount represents losses in operation of \$373,823,120.38 and losses of \$3,421,699.35 during 1937 and 1938 due to line abandonments in respect of which the Government has not made cash reimbursements to the railway.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government—Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) Of this amount \$2,853,912 was originally due February 1st, 1884, and \$4,527,000 on November 7th, 1888. Later, the aggregate of these two amounts, \$7,380,912, was consolidated with the construction loan of \$21,650,700; the security was re-arranged and the whole was made payable on May 1st, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,793,014 acres of a land grant value at \$1.50 per acre, amounting to \$10,189,521.33. This amount included interest of \$908,609.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Balance Sheet of the Public Accounts of Canada under Assets, Miscellaneous Current Accounts, Schedule "J".

Appendix 26M

CALCULATION OF ACCRUED INTEREST ON LOANS

NOTE.—This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest however was never taken up to the accounts of the Dominion, but interest amounting to \$330,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$74,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

DEPARTMENT OF FINANCE,

OTTAWA, OCTOBER 28, 1940.

The Honourable J. L. ILSLEY,
Minister of Finance.

SIR,—I have the honour to submit to you the Public Accounts of the Government of the Dominion of Canada for the fiscal year ended March 31, 1940.

CLASSIFICATION OF ACCOUNTS

The broad classification of the public accounts, which is followed herein, deals on the revenue side with Ordinary Revenues, Special Receipts and Credits, Capital Refunds, and Other Receipts and Credits; and on the expenditure side with Ordinary Expenditures, Special Expenditures, Operating Deficits of and Non-active Advances to Government Owned Enterprises, Capital Expenditures, and Other Charges including Write-down of assets.

ORDINARY RECEIPTS AND EXPENDITURES

The receipts for the year on Ordinary Account amounted to \$541,616,092.14, and the expenditures on the same account to \$398,323,205.55, resulting in a surplus on Ordinary Account of \$143,292,886.59.

SPECIAL RECEIPTS AND EXPENDITURES

In addition to Ordinary Receipts, there were Special Receipts and Credits of \$163,812.41, of which \$10,992.37 represented war donations, listed in detail on pages 52 and 53, and \$152,820.04 represented refunds of previous years' relief expenditures.

Special Expenditures aggregated \$207,403,972.67. Of this amount \$118,291,021.64 represented war expenditures. A break-down of such war expenditures by departments is given on page 46, and may be summarized as follows:—

National Defence—	
Militia Services.....	\$ 67,302,186 25
Naval Services.....	11,341,458 51
Air Services.....	28,561,303 38
British Commonwealth Air Training Plan.....	4,257,081 06
Sundry.....	890,407 78
	<hr/>
	\$ 112,352,436 98
Other Departments.....	5,938,584 66
	<hr/>
	\$ 118,291,021 64

Expenditures on relief including special works and projects, material aid to Provinces and drought area relief amounted to \$54,612,951.03.

Pursuant to Section 6, sub-section 8 of the Prairie Farm Assistance Act, 1939, the Dominion made advances totalling \$7,500,000 to a special account defined by the Act as The Prairie Farm Emergency Fund. This fund which was established to provide under the terms of the Act certain awards to farmers engaged in farming in the Spring wheat area was supplemented by a levy of one per centum

on grain purchased by licensees. The remaining item in this category, namely \$27,000,000, represented the provision made in 1939-40 for estimated further losses of the Canadian Wheat Board in connection with the marketing of the 1938 Wheat Crop.

A statement of Special Receipts and Special Expenditures follows:—

GOVERNMENT OWNED ENTERPRISES

Expenditures under this heading were made to the amount of \$42,079,149.35, of which the sum of \$41,044,004.16 was charged to Consolidated Fund, and the balance to Loans and Advances Non-active. The amount charged to Consolidated Fund was almost wholly accounted for by the net income deficit of the Canadian National Railways for the calendar year 1939. This deficit amounted to \$40,095,519.58, of which \$34,850,755.22 was attributable to the System exclusive of Eastern Lines. The deficit on account of Eastern Lines amounted to \$5,244,764.36, and on account of the Prince Edward Island Car Ferry and Terminals, to \$426,854.05. In addition there were payments to the Trans-Canada Air Lines of \$411,656.59, to the Central Mortgage Bank of \$16,069.37, and to the National Harbours Board of \$93,904.57 representing operating deficits incurred during the calendar year 1939. The operating deficit of the National Harbours Board is accounted for as follows: Churchill Harbour, \$46,491.58 and Quebec Harbour, \$47,412.99.

Non-active Loans and Advances to Government Owned Enterprises totalled \$1,035,145.19. Of this total the National Harbours Board accounted for \$1,026,773.84 allocated as follows: Chicoutimi Harbour, for reconstruction and capital expenditure, \$134.10; Halifax Harbour, for reconstruction and capital expenditure, \$123,165.05; Saint John Harbour, \$53,565.81, of which \$7,000 was for retirement of maturing debentures and \$46,565.81 for reconstruction and capital expenditures; Three Rivers Harbour, for reconstruction and capital expenditures \$2,770.55; Quebec Harbour, for reconstruction and capital expenditures \$470,457.33; and Montreal Harbour (Jacques Cartier Bridge), \$376,681, being advances for guaranteed interest. The balance of \$8,371.35 represents an advance to the Canadian National (West Indies) Steamships Limited, applied in payment of capital expenditures for the calendar year 1939.

CAPITAL REFUNDS AND EXPENDITURES

The following outlays were made during the year and charged to Capital Account:—

Public Works (Page 10).....	\$ 7,007,468 42
Railways (Page 10).....	22,569 92
	\$ 7,030,038 34

The following refunds of expenditures made in previous fiscal years were credited to Capital Account:—

Railways (Page 11).....	\$	20,600 88
Canals (Page 11).....		643 10
	\$	21,243 98

The result was a net expenditure on Capital Account of \$7,008,794.36.

OTHER RECEIPTS AND CREDITS AND OTHER CHARGES INCLUDING WRITE-DOWN OF ASSETS

Active assets written off to Consolidated Fund during the year amounted to \$3,027,717.33. Of this amount, the annual write-off of Soldier and General Land Settlement Loans amounted to \$1,642,532.89, of which \$1,457,481.56 represented adjustments made pursuant to the Farmers' Creditors Arrangement Act. A small amount of \$355.63 was written off Assisted Passage Loans advanced under the Empire Settlement Scheme. Capital Stock of the Canadian Farm Loan Board was cancelled in the amount of \$10,849, of which \$1,580 represented subscriptions written down as a result of adjustments made under the Farmers' Creditors Arrangement Act. An amount of \$1,373,979.81 of Saskatchewan Treasury Bills was written-off as a final adjustment with respect to drought area relief assumed by the Dominion for the period September 1, 1934, to August 31, 1935.

In addition to the above, non-active assets totalling \$20,292,310.91 were written off to Consolidated Fund. An amount of \$9,711.19 representing the established losses during the year in Seed Grain and Relief Accounts under the administration of the Department of Mines and Resources was written off pursuant to Chapter 51, Statutes of 1927. An amount of \$2,600,442.11 was written off from Canadian National Railways Securities Trust Stock due to line abandonments during the calendar year 1939. The balance of \$17,682,157.61 represents the final write off of Saskatchewan Treasury Bills written down to non-active assets during the fiscal year 1936-37. This was pursuant to the co-operative plan for the reduction of farmer indebtedness in the drought area of Saskatchewan. These write-downs to Consolidated Fund from non-active account, constitute a reduction in non-active assets and necessarily appear in the form of credits to non-active accounts, leaving the net debt unchanged.

Pursuant to the Saskatchewan Seed Grain Loans Guarantee Act, 1936, the Dominion was required to fulfil its guarantee with respect to bank loans made to municipalities in connection with seeding operations during the Spring of 1936, to the extent of \$2,637,398.15.

OVER-ALL DEFICIT OR INCREASE IN NET DEBT

The sum of Ordinary Expenditures, Special Expenditures, Operating Losses of and Non-active Advances to Government Owned Enterprises, Capital Expenditures and Other Charges including Write-down of Assets, gives the total expenditures of the Dominion Government during the fiscal year, 1939-40. This total amounted to \$680,793,792.30. As total revenues, including Special Receipts and various credits, aggregated \$562,093,459.44, the over-all deficit or increase in net debt during the year was \$118,700,332.86, which, it will be noted, was the approximate amount of war expenditure for the fiscal year.

Total net debt of the Dominion as at the close of the fiscal year was \$3,271,259,647.34.

The increase of \$118,700,332.86 in the net debt during the fiscal year is accounted for as follows:—

PERCENTAGE DISTRIBUTION OF REVENUES AND EXPENDITURES, 1939-40

The following table shows the percentage distribution of revenues and expenditures for a number of important items. Receipts from various taxes and other sources of revenue are shown as percentages both of total revenues and of total expenditures. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditures and of total revenues. The nature of the Dominion's accounting system and the method of classifying accounts make it impossible to achieve precise accuracy but the results are sufficiently accurate to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by several important services or obligations of government.

LOANS

In May, 1939, a bond issue was floated in the domestic market. Bonds in the amount of \$50,000,000 were offered for cash and, in addition, an opportunity to convert into the new issue was given to holders of certain issues which were to mature before the end of the calendar year. The terms of the new issue, which was offered in two maturities, were as follows:—

- 3-year 1½% bonds, dated May 15, 1939, and maturing May 15, 1942, priced at 99-37½ and accrued interest to yield 1-72%.
- 19-year 3% bonds, dated May 15, 1939, and maturing June 1, 1958, priced at 98-50 and accrued interest to yield 3-10%.

The 3-year bonds were allotted in the amount of \$95,500,000 and the 19-year bonds in the amount of \$39,000,000. Amounts of the maturing issues which were converted into the new issue were as follows:—

1% bonds due June 1, 1939.....	\$ 37,362,000
4% bonds due Oct. 15, 1939.....	30,101,500
2½% bonds due Oct. 15, 1939.....	1,690,500
2% bonds due Nov. 15, 1939.....	15,346,000

On July 1, 1939, the 4% School Lands Debentures amounting to \$33,293,-470.85 held by the Provinces of Manitoba, Saskatchewan and Alberta were renewed for a further period of one year at the same interest rate.

In accordance with the policy announced in the War Budget brought down at the special session in September, 1939, the first borrowing operation after the outbreak of war was a short-term banking transaction. On October 16, 1939, an issue of 2% notes maturing October 16, 1941, and amounting to \$200,000,000 was sold to the chartered banks at par and accrued interest. The purpose of this issue was to provide funds to redeem loans maturing in the amount of \$28,064,500, funds for ordinary governmental purposes, and funds to assist in a program of repatriating Canadian securities held in the United Kingdom. As a first step in this repatriation program, the 3½% Dominion of Canada Registered Stock maturing in 1950 but subject to call on 6 months' notice after July 1, 1930, was called for redemption on April 17, 1940. This issue was outstanding in the amount of £28,162,775 11-0 of which an amount of £7,732,779-18-9 was held in various sinking fund accounts. As a result of this operation, Canadian dollars in the amount of approximately \$91,000,000, were made available to the Government of the United Kingdom for the purchase of foodstuffs, raw materials and munitions of war in Canada.

In January, 1940, the Minister of Finance came to the market with the First War Loan, a loan designed to attract public savings for war purposes. This issue was dated February 1, 1940, and one-fifth of the issue was to be redeemed by annual drawings by lot on February 1st of each year from 1948 to 1952. The Loan bears an interest rate of 3½% and was priced at par and accrued interest. While it was intended primarily to raise cash to meet war expenditures, an opportunity was also given to holders of the 3% Loan maturing on March 1, 1940, to convert their holdings into First War Loan bonds. The Loan was heavily oversubscribed, 178,363 subscriptions being received for a total amount of \$374,576,850. The wide distribution of the Loan amongst the general public is indicated by the fact that 121,407 subscriptions were received for amounts of \$50 to \$500. Of the total subscriptions received, an amount of \$200,000,000 was allotted to cash subscribers and an amount of \$50,000,000 to conversion subscribers, making a total issue of \$250,000,000.

The 3% issue maturing March 1, 1940, had been outstanding in the amount of \$115,013,636.82. As already indicated, bonds of this issue to the amount of \$50,000,000 were converted into an equal principal amount of First War Loan bonds. This left \$65,013,636.82 of bonds outstanding to be dealt with on

March 1, 1940. A new issue of \$40,000,000 5-year 2% bonds, dated March 1, 1940, was sold to the Bank of Canada, and the remainder of the issue was paid off in cash. The 5-year 2% bonds were sold at a price of 99.375, resulting in a cost to the Government of 2.13%.

During the fiscal year, the issue of three months Treasury Bills by public tender, twice monthly, was continued. These Bills were sold on a discount basis, and the average discount on each issue varied from a low of 0.553% on August 15, 1939, to a high of 0.925% on September 29, 1939. The average cost to the Treasury of funds obtained from the twenty-three offerings during the year was a discount basis of 0.726%. The amount of these Treasury Bills outstanding at March 31, 1940, was \$155,000,000, the same as the total outstanding at the close of the previous fiscal year.

As at March 31, 1940, the average rate of interest on the Dominion's outstanding direct funded debt (including Treasury Bills) was 3.40% as compared with 3.52% on March 31, 1939.

POST OFFICE SAVINGS BANK

At the close of the fiscal year, the balance at the credit of depositors in the Post Office Savings Bank was \$23,100,118.44, an increase of \$54,542.80 as compared with the balance held on March 31, 1939. Withdrawals for the year exceeded deposits by \$396,016.44. Accrued interest was added in the amount of \$450,559.24. Gold held on March 31, 1940, for the account of the Post Office Savings Bank, as provided for by Section 47, Chapter 15, R.S.C. 1927 amounted to \$2,310,011.84 (valued on the basis of \$20.671834 per fine ounce).

INVESTMENTS

SINKING FUNDS

Investments on account of Sinking Funds of various sterling loans were made during the year to an amount of \$3,347,184.95. In addition there was held in the 1930-50 Sinking Fund Account at the close of the year \$841,914.17, in cash making a total of \$4,189,099.12. Stocks of other loans amounting to \$6,986,652.37 held in the sinking fund of the 3½% 1930-50 Loan which was called for payment on April 17, 1940, were transferred to a Bond Holding Account to be repurchased later for the sinking funds of other sterling issues. All the 3½% 1930-50 stock held in the 4% 1940-60 Sinking Fund and in the 4% 1953-58 Sinking Fund Account was exchanged for stocks of the two last-named issues held in the 3½% 1930-50 Sinking Fund, as shown in Appendix No. 3 (page 73). The aforesaid transactions resulted in a net decrease in the Sinking Funds Account for the year of \$2,797,553.25.

ADVANCES TO NATIONAL HARBOURS BOARD

Advances for capital purposes, treated in the accounts as Active Assets, were made under statute to the National Harbours Board as follows:—

CANADIAN FARM LOAN BOARD

During the year the Government purchased \$185,278 of the Capital Stock of the Canadian Farm Loan Board and \$2,100,000 of its 3½% bonds due January 2, 1960. As already reported, \$10,849 of the Capital Stock of the Board held by

the Government was cancelled. Under authority of The Canadian Fisherman's Loan Act, Chap. 52, Acts of 1935, there was advanced to the Board \$2,000 as initial capital, and \$257 as subscription to Capital Stock. As at March 31, 1940, the Board reported outstanding loans to farmers totalling \$36,652,349.03 secured by first mortgages in the amount of \$33,842,624.14 and by second mortgage in the amount of \$2,809,724.89. Real estate held for sale amounted to \$262,184.21, and agreements for sale were carried at \$432,347.42. The Board also reported loans to fishermen outstanding as at March 31, 1940, in the amount of \$31,541.89.

SOLDIER AND GENERAL LAND SETTLEMENT LOANS

The aggregate of active loans outstanding on this account decreased during the year by \$2,758,968.13. This left a balance outstanding at the close of the year of \$54,355,379.29 of which the amount of \$37,829,461.80 is carried as an active asset and the remaining amount of \$16,525,917.49 is carried as a non-active asset.

HOUSING LOANS, 1919

During the fiscal year, three Provincial Governments reduced their indebtedness to the Dominion on account of housing loans made at the close of the Great War by \$699,000, accounted for as follows:—

Province of Prince Edward Island.....	\$ 3,000 00
Province of Nova Scotia.....	55,000 00
Province of Manitoba.....	641,000 00

DOMINION HOUSING ACT, 1935, AND NATIONAL HOUSING ACT, 1938

To the close of the fiscal year on March 31, 1940, 10,059 loans aggregating \$52,553,303, had been approved under the National Housing Act and under its predecessor, the Dominion Housing Act. Of this amount, the Dominion's share was \$13,395,303, of which \$10,270,984 had actually been disbursed.

Total receipts, in respect of such loans to March 31, 1940, amounted to \$798,499.25, of which \$332,791.87 represented interest and \$465,707.38 repayment of principal, leaving a net capital investment by the Dominion on March 31, 1940, of \$9,805,276.62.

As at September 30, 1940, loans approved under Part I of the National Housing Act, and under its predecessor, the Dominion Housing Act, numbered 13,368 for an aggregate value of \$62,607,990. Of this amount, \$21,155,655 represented loans approved under the Dominion Housing Act (October, 1935–July, 1938, inclusive) and \$41,452,335 represented loans approved under the National Housing Act (August, 1938–September, 1940, inclusive).

To September 30, 1940, the Dominion's share of all loans approved amounted to \$15,908,676, of which \$12,267,993 had been disbursed.

THE CANADIAN BROADCASTING CORPORATION

During the year there was advanced to the Canadian Broadcasting Corporation the sum of \$750,000 for capital construction purposes, mainly for two transmitting stations located in the Maritime and Prairie Provinces. The Corporation repaid \$50,000 on account of a loan advanced during the fiscal year 1937-38. The outstanding balance of this loan at March 31, 1940, was \$100,000, making a total outstanding at that date of \$1,150,000. These advances bear interest at the rate of $3\frac{1}{2}\%$ per annum and are carried as active assets.

BANK OF CANADA CAPITAL STOCK

The Government's investment in the capital stock of the Bank of Canada remained at \$5,920,000. The Government's holdings now represent 100,000 shares of \$50 par value each, paying dividends at the rate of $4\frac{1}{2}\%$ per annum.

CENTRAL MORTGAGE BANK

In August, 1939, the Government purchased capital stock of the Central Mortgage Bank to the amount of \$250,000. On November 13, 1939, it was announced that the Central Mortgage Bank would not commence active operations for the time being. The existing state of war and the uncertainties regarding the effect which war might have on incomes and real estate values, made conditions so abnormal that the Government did not feel it would be practicable to make, with any degree of assurance and on the scale contemplated by the Act authorizing the establishment of the Bank, valuations that would provide an equitable and permanent basis for sound debtor-creditor relationships. There was the further consideration that the adjustments contemplated by the Act involved the use of the national credit on a substantial scale, and this also was considered undesirable in view of the very heavy demands upon the Dominion's resources for war purposes.

MUNICIPAL IMPROVEMENTS ASSISTANCE ACT, 1938

Under the Municipal Improvements Assistance Act, 1938, the Government during the fiscal year approved loans in the amount of \$2,029,058.96 to municipalities to enable them to finance the construction of municipal self-liquidating projects. From the inception of the Act to March 31, 1940, the total loans approved aggregated \$5,271,753.49. The actual advances made during the fiscal year 1939-40 amounted to \$3,112,168.35. Interest to the amount of \$28,639.40 was received during the year, and a small repayment of principal of \$901.04. The net amount of loans outstanding as at March 31, 1940, was \$3,926,354.91.

These loans bear interest at the rate of 2% per annum and are amortized over a period not longer than the estimated useful life of the project. The province in which the municipality is located is required to guarantee the payments of interest on and amortization of loans made under the Act within the Province.

LOANS TO PROVINCES

Under the authority of Orders in Council passed pursuant to The Unemployment and Agricultural Assistance Acts of 1938 and 1939, loans secured by Provincial Treasury Bills, bearing interest at the rate of 3% per annum, were made to the Provinces of Manitoba, Saskatchewan and British Columbia for

relief purposes. A statement showing the amount of loans made and repayments during the fiscal year and the total of loans made to the four Western Provinces under various annual relief acts which was outstanding at the end of the year, follows:—

Trans-Canada Air Lines Act (purchase of capital stock).....		450,000	00
	\$	<u>22,978,856</u>	<u>33</u>

A loan of \$1,500,000 made in the fiscal year 1938-39 in anticipation of the passing of the 1939 budget of the Railway Company, was repaid during the current fiscal year.

The Dominion purchased under authority of the War Measures Act and the War Appropriation Act, railway equipment for the Company to the amount of \$6,188,833.92. This equipment has been leased to the Railway Company under a hire-purchase agreement extending over a period of fifteen years. Under the terms of a previous hire-purchase agreement relating to certain equipment purchased by the Government in 1935-36 and 1936-37, the company has paid during the year the third instalment of \$517,173.07. The amount outstanding at March 31, 1940, of advances made under these two agreements amounted to \$11,877,737.79.

CANADIAN PACIFIC RAILWAY COMPANY

During the fiscal year the Canadian Pacific Railway Company repaid \$110,940 and \$100,000 on account of loans made for Special Works Program

and loans made for betterment or repair of railway equipment, respectively. The Company also paid \$440,769.23 on account of equipment purchased by the Government in 1935-36, 1936-37 and 1937-38 and leased to the Company under a hire-purchase agreement.

Under the authority of the War Measures Act and the War Appropriation Act, the Dominion purchased railway equipment for the company to the amount of \$2,903,907.51. This equipment has been leased to the Railway Company under a hire-purchase agreement extending over a period of fifteen years. The total amount outstanding at March 31, 1940, under these hire-purchase agreements with the Canadian Pacific Railway Company was \$7,311,599.82.

FOREIGN GOVERNMENTS

During the year the Government of Roumania paid \$470,080.17 as interest due the Dominion. Of this amount \$450,626.60 represented 47 per cent of interest coupons due April 1 and October 1, 1939, on its 4% bonds held by the Dominion. The balance of \$19,453.57 was in payment of one year's interest due November 1, 1939, on its 4½% Bonds.

No payments, either on account of interest or principal were received during the fiscal year from the Government of Greece in respect of its indebtedness to the Dominion.

TOTAL INCREASE IN ACTIVE INVESTMENTS

As a result of the transactions outlined above, the total active investments of the Dominion Government increased during the year by a net amount of \$46,017,231.98.

The following table shows how this increase is accounted for:—

OLD AGE PENSIONS AND PENSIONS FOR BLIND PERSONS

During the fiscal year 1939-40, Old Age Pensions and Pensions for Blind Persons were paid, in the nine provinces and in the Northwest Territories. Appendix No. 24 (page 115) shows by provinces the number of pensioners, average monthly pension, Dominion Government's contributions for the fiscal year and the total contributions by the Dominion Government from the inception of the Act.

ASSISTANCE TO RAILWAYS

As required by Sec. 24 of the Canadian National Railways Capital Revision Act, 1937, a detailed statement showing total assistance granted in various forms to all Railways was included as an appendix to the Public Accounts of Canada for the fiscal year 1937-38. This statement has been revised to March 31, 1940, and is included in the Public Accounts for the current year as Appendix No. 25 (pages 116-157).

GUARANTEED SECURITIES

CANADIAN NATIONAL RAILWAY COMPANY

Railway securities bearing the guarantee of the Dominion, outstanding in the hands of the public were reduced during the fiscal year by \$949,863.13. The total amount held by the public guaranteed as to principal and interest at March 31, 1940, was \$837,708,753.13, and the amount guaranteed as to interest only was \$216,207,141.67.

GRAIN MARKETING

Under authority of an amendment to the Canadian Wheat Board Act, 1935 (3 George VI Chapter 39), a price of 70 cents per bushel, basis No. 1 Northern, Fort William, was fixed as the basic price at which the Canadian Wheat Board was willing to pay for all wheat of the 1939 crop delivered to the Board by producers thereof. The Board's operations were financed by loans obtained from a group of chartered banks under guarantee of the Dominion Government. At the close of the previous fiscal year a reserve of \$25,000,000 had been set up to meet possible losses of the Canadian Wheat Board in respect of 1938 wheat. To this amount the sum of \$27,000,000 was added in 1939-40 and the total of these sums, namely, \$52,000,000, was paid to the Board and guaranteed bank advances in a corresponding amount were repaid. The amount of the guaranteed bank loans outstanding at March 31, 1940, which mainly related to the purchase of the 1939 wheat crop was \$42,998,099.77.

The guarantee of the Dominion to the Winnipeg Grain and Produce Clearing Association, Limited, arising out of transactions and trades made by the Canadian Wheat Board continues. No liability in connection with this guarantee accrues from day to day, as margin deposits are made by the Board to the Association daily.

SEED GRAIN LOANS

The principal amount of loans made by chartered banks for seed grain purposes for the crop year 1937, guaranteed by the Dominion under the terms of The Seed Grain Loans Guarantee Act, 1937, and outstanding at January 31, 1940, was, \$6,891,857.65, divided by Provinces as follows: Manitoba, \$71,995.81; Saskatchewan, \$6,340,069.37; and Alberta, \$479,792.47.

Under the terms of The Seed Grain Loans Guarantee Act, 1938, the Dominion provided seed grain assistance to farmers in the Provinces of Saskatchewan and Alberta for the crop year 1938. The principal amount authorized by the Act to be guaranteed, was \$14,500,000 with respect to Saskatchewan, and \$1,900,000 with respect to Alberta. The principal amount guaranteed in the case of Alberta was \$1,089,482.84, and the principal amount outstanding as at January 31, 1940, was \$932,188.81. In the case of Saskatchewan, a general guarantee was given for an amount not exceeding the maximum amount authorized.

NATIONAL HOUSING ACT

Under the Dominion Housing Act, 1935, and the National Housing Act, 1938, the Dominion has accepted and is accepting certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities.

The manner in which losses in respect of any loan are to be borne by the Dominion and the lending institution is fixed by the contract. The general principle is that the Dominion bears two-thirds of the loss if at the time the loss is sustained the principal amount of the loan repaid, less any other amounts

due, is equal to or less than the amount advanced by the Dominion and one-third of the loss if at the time the loss is sustained the principal amount repaid, less any other amounts due, is more than the amount advanced by the Dominion. In the case of small loans (that is, loans not in excess of \$4,000 in the case of a single family dwelling or not in excess of \$700 per habitable room in the case of a multiple family dwelling), the share of the loss to be borne by the Dominion is not more than 80 per cent and not less than 50 per cent of the loss. The above provisions apply to loans made under both the National Housing Act and its predecessor the Dominion Housing Act. Under the National Housing Act a new provision was added to encourage the making of small loans in such small or remote communities and in such districts of other communities as may be designated by the Minister of Finance in any contract. In respect of such loans, the Dominion has agreed in contracts with certain lending institutions to pay losses sustained by any such lending institution up to certain amounts determined by the contract which are not less than 7 per cent and do not exceed 25 per cent of the total amount of such loans made in such areas by each such lending institution.

The total amount of loans approved at March 31, 1940, under the Dominion Housing Act, 1935, and the National Housing Act, 1938, was \$52,553,303. Losses realized by the Dominion as of that date amounted to \$831.02.

HOME IMPROVEMENT LOANS

Under the terms of The Home Improvement Loans Guarantee Act, 1937, \$41,110,116.95 had been loaned up to March 31, 1940, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans is limited to 15 per cent of the aggregate of such loans made by each lending institution. As two hundred and eighty-eight claims for losses in the amount of \$86,922.06 were paid to March 31, 1940, of which \$1,196.71 has been recovered, the contingent liability of the Government at that date was \$6,079,595.48. It will be noted that the total of claims paid less recoveries amounted to only .209 per cent of the total amount of the loans made, and as at March 31, 1940, over 58.55 per cent of the total amount of all loans made had been repaid.

TOTAL GUARANTEED OBLIGATIONS OUTSTANDING

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In this year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan Flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund, and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises was also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under the various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include non-active loans and write-down of assets, in addition to all other expenditures.

* Relief Projects, Grants in Aid to Provinces, Other Works and Western Drought Area Relief.

NOTE.—The above table is based on the classification of accounts adopted for the fiscal year 1936 and appropriate adjustments for the years 1930-35 were made for comparative purposes. Instead of showing Surplus or Deficit in Consolidated Fund as in the preceding table, the difference between Total Revenues and Total Disbursements, in other words, the increase in Net Debt, is shown in the final column.

* Includes net credit of \$1,023,058.94 resulting from Canadian National Railways Capital Revision Act, 1937.

This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and predecessor companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest however was never taken into the accounts of the Dominion but interest amounting to \$530,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$174,813,657.91. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

(a) Amount paid by Dominion in acquiring 900,000 shares of the capital stock of the Canadian Northern Railway Company.
 (b) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company. See detailed explanation in Appendix 25I.
 (c) Of this amount \$7,380,912 was not used for capital expenditures but represented the balance due by the Company under agreement made in 1883 for the creation of a fund to be held by the Government to guarantee a dividend of 3 per cent per annum for ten years on the Company's outstanding stock in an endeavour to assist in financing construction through the sale of additional stock. The amount on deposit with the Government was, at all times, more than sufficient to meet the payments which, under the agreement, the Government undertook to make. The obligation of the Company was fully discharged in 1886, some years in advance of its due date (See Note E to Appendix 25E, Page 145).

(a) Difference between conversion of pound sterling at \$4.86½ and at \$4 86 charged to Consolidated Fund of Canada.

(b) Adjustments to loans, under authority of the Canadian National Railways Capital Revision Act of 1937. Capital expenditures on wharves (\$1,006,227.61) transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway (\$660,369.96) transferred to the Department of Transport.

(c) This amount represents losses in operation of \$273,823,120.38 and losses of \$6,025,911.46 during years 1937 to 1939 due to line abandonments in respect of which the Government has not made cash reimbursements to the railway.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government.—Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) Of this amount \$2,853,912 was originally due February 1st, 1884, and \$4,527,000 on November 7th, 1888. Later, the aggregate of these two amounts, \$7,380,912 was consolidated with the construction loan of \$21,650,700; the security was rearranged and the whole was made payable on May 1st, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,793,014 acres of a land grant valued at \$1.50 per acre, amounting to \$10,189,521.33. This amount included interest of \$308,699.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Balance Sheet of the Public Accounts of Canada under Assets, Miscellaneous Current Accounts, Schedule "J".

CALCULATION OF ACCRUED INTEREST ON LOANS

NOTE.—This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest however was never taken into the accounts of the Dominion, but interest amounting to \$530,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

DEPARTMENT OF FINANCE,
OTTAWA, OCTOBER 27, 1941.

The Honourable J. L. ILSLEY,
Minister of Finance.

SIR.—I have the honour to submit to you the Public Accounts of the Government of the Dominion of Canada for the fiscal year ended March 31, 1941.

CLASSIFICATION OF ACCOUNTS

The broad classification of the public accounts, which is followed herein, deals on the revenue side with Ordinary Revenues, Special Receipts and Credits, Capital Refunds, and Other Receipts and Credits; and on the expenditure side with Ordinary Expenditures, War Expenditures, Special Expenditures, Operating Deficits of and Non-active Advances to Government-Owned Enterprises, Capital Expenditures, and Other Charges including Write-down of assets.

ORDINARY RECEIPTS AND EXPENDITURES

The receipts for the year classified as Ordinary Receipts amounted to \$859,754,928.35, and the expenditures on the same account totalled \$890,629,350.02, resulting in a surplus of \$169,125,578.33. In previous years it was the practice in the Public Accounts to place some emphasis on the net results achieved with respect to Ordinary Receipts over Ordinary Expenditures. A comparison of this surplus of \$169,125,578.33 should not be made with the results on Ordinary Account for previous years, for the reason that the total Ordinary Receipts of \$859,754,928.35 includes increases in existing taxes and new taxation imposed to meet in part war costs which are not included as Ordinary Expenditure but shown separately under the heading of War Expenditures. The following summary gives the main sources of revenues for 1940-41 compared with revenues received during 1939-40.

WAR EXPENDITURES

The total outlay for war purposes during the year, without taking into account any commitments entered into but not paid, aggregated \$778,424,391.89. Included in this total is an amount of \$26,379,065.83 representing loans and advances charged to active assets, leaving net War Expenditure at \$752,045,326.06. The items charged to Active Assets are:

Purchase of Railway Equipment, leased to—	
Canadian National Railway Company.....	\$ 8,690,690 86

SPECIAL RECEIPTS AND EXPENDITURES

In addition to revenues shown in the foregoing table, there were Special Receipts and Credits of \$8,538,235.66, of which \$1,410,149.20 represented voluntary war donations, \$5,503,500.00 represented the capital gain on redemption of Grand Trunk Railway 4% Perpetual Debenture Stock at £103 17 4 per £100 converted at \$4.45 to the pound, and \$1,221,076.15 represented refunds of previous year's War Expenditure. The balance of \$403,510.31 is made up of Sundry Receipts and Credits.

Expenditures on relief, including special works and projects and payments to Provinces for direct relief, amounted to \$27,646,853.34. Expenditures under the Prairie Farm Assistance Act, 1939, made up of advances to the Prairie Farm Emergency Fund and costs of administration totalled \$4,722,568.22. The remaining item in this category, amounting to \$10,499,676.97, represents the amount set up as a reserve to meet the deficit of the Canadian Wheat Board, calculated as at July 31, 1940, not previously provided for.

A statement of Special Receipts and Special Expenditures follows:

GOVERNMENT OWNED ENTERPRISES

Expenditures under this heading were made to the amount of \$18,181,678.69, of which the sum of \$17,465,731.28 was charged to Consolidated Fund, and the balance to Loans and Advances Non-active. The amount charged to Consolidated Fund was almost wholly accounted for by the net income deficit of the Canadian National Railways for the calendar year 1940. This deficit amounted to \$16,965,044.18, of which \$14,451,174.42 was attributable to the System exclusive of Eastern Lines and \$2,513,869.76 attributable to Eastern Lines. The deficit on account of the Prince Edward Island Car Ferry and Terminals was \$460,773.48. In addition there were payments to the National Harbours Board of \$39,913.62, representing the operating deficit of Churchill Harbour for the calendar year 1940.

Non-active Loans and Advances to Government Owned Enterprises totalled \$715,947.41, all of which was advanced to the National Harbours Board, for the following purposes: Churchill Harbour, for reconstruction and capital expenditures, \$815.04; Halifax Harbour, for reconstruction and capital expenditures, \$188,358.37; Saint John Harbour, \$94,187.82, of which \$30,000.00 was for retirement of maturing debentures and \$64,187.82 for reconstruction and capital expenditures; Quebec Harbour, for reconstruction and capital expenditures \$7,586.18 and Montreal Harbour (Jacques Cartier Bridge), advances for guaranteed interest \$425,000.

CAPITAL REFUNDS AND EXPENDITURES

The following outlays were made during the year and charged to Capital Account:—

Public Works (Page 10).....	\$ 3,350,989 17
Railways (Page 10).....	6,820 68
	<hr/>
	\$ 3,357,809 85

The following refunds of expenditures made in previous fiscal years were credited to Capital Account:—

Public Works (page 9).....	\$ 12,113 09
Railways (page 9).....	4,460 90
Canals (page 9).....	3,830 00
	<hr/>
	\$ 20,403 99

The result was a net expenditure on Capital Account of..... \$3,337,405 86

OTHER RECEIPTS AND CREDITS AND OTHER CHARGES,
INCLUDING WRITE-DOWN OF ASSETS

Active assets written off to Consolidated Fund during the year amounted to \$1,023,252.02. Of this amount, the annual write-off of Soldier and General Land Settlement Loans amounted to \$1,011,012.35, of which \$888,288.55 represented adjustments made pursuant to the Farmers' Creditors Arrangement Act. A small amount of \$244.67 was written off Assisted Passage Loans advanced under the Empire Settlement Scheme. Capital stock of the Canadian Farm Loan Board was cancelled in the amount of \$11,995.00, of which \$5,735.00 represented subscriptions written down as a result of adjustments made under the Farmers' Creditors Arrangement Act.

In addition to the above, non-active assets totalling \$3,855,380.18 were written off to Consolidated Fund. An amount of \$46,059.38, representing the established losses during the year in Seed Grain and Relief Accounts under the administration of the Department of Mines and Resources, was written off

pursuant to Chapter 51, Statutes of 1927. The balance of \$3,809,320.80 was written off from Canadian National Railways Securities Trust Stock, of which the sum of \$2,334,349.56 was due to line abandonments during the calendar year 1940, and the sum of \$1,474,971.24 was due to the capital loss (exclusive of loss applicable to expired service life), on the sale of the steamships, *Prince David* and *Prince Robert*. These write-downs to Consolidated Fund from non-active account constitute a reduction in non-active assets and necessarily appear in the form of credits to non-active accounts, leaving the net debt unchanged.

An amount of \$5,503,500.00 was added to the Canadian National Railways Securities Trust Stock, being the capital gain on redemption of an estimated £22,500,000 of Grand Trunk Railway 4% debenture stock. This figure is offset by a similar amount included as a credit to Consolidated Fund. A small amount of \$697.04 was received from the Canadian Government Merchant Marine, representing the balance of their contingent reserve transferred to the Receiver General.

Pursuant to the Seed Grain Loans Guarantee Act, 1937, the Dominion was required to fulfil its guarantee to the extent of \$7,136,051.09, with respect to bank loans made to municipalities in the Province of Saskatchewan in connection with seeding operations during the Spring of 1937.

The remaining debit item in this category, namely, \$25,000,000.00, represents provision which it was considered wise to make for a reserve to meet possible losses on ultimate realization of active loans and advances. This item appears as a reduction of outstanding loans and advances and a charge to consolidated fund. Accordingly the net debt of the Dominion was increased to this extent. It is the intention to add to this reserve during the next few years until a total amount is reached which is believed to be adequate to provide for any losses that may be possible in the ultimate realization of loans and advances treated as active assets in the Dominion's accounts.

OVER-ALL DEFICIT OR INCREASE IN NET DEBT

The sum of Ordinary, War and Special Expenditures, Operating Losses of and Non-active Advances to Government Owned Enterprises, Capital Expenditures and Other Charges including Write-down of Assets, gives the total expenditures of the Dominion Government during the fiscal year 1940-41. This total amounted to \$1,249,601,446.44. As total revenues, including Special Receipts and various credits, aggregated \$872,169,645.22, the over-all deficit or increase in net debt during the year was \$377,431,801.22.

Total net debt of the Dominion as at the close of the fiscal year was \$3,648,691,448.56.

The increase of \$377,431,801.22 in the net debt during the fiscal year is accounted for as follows:—

PERCENTAGE DISTRIBUTION OF REVENUES AND EXPENDITURES, 1940-41

The following table shows the percentage distribution of revenues and expenditures for a number of important items. Receipts from various taxes and other sources of revenue are shown as percentages both of total revenues and of total expenditures. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditures and of total revenues. The purpose of this table is to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by the War and the several important services or obligations of government.

LOANS

The major public financing of the Dominion during the fiscal year ended March 31, 1941, was the issue in September, 1940 of the Second War Loan. This issue was dated October 1, 1940, and matures October 1, 1952. The bonds bear interest at the rate of 3% and were sold at 98.75 and accrued interest to yield 3.125%. The total amount issued was \$324,945,700, of which the sum of \$300,000,000 was issued for cash and the remainder in conversion of 4½% Bonds due September 1, 1940. The latter bonds were valued at 100.25

for conversion purposes. The total number of subscribers to the issue was 150,890.

In May 1940, the Dominion instituted the sale of War Savings Certificates and War Savings Stamps. The Certificates are sold at a discount of 20% from their maturity value. The Certificates yield the investor 3 per cent per annum, compounded semi-annually, if held to maturity, seven and one-half years from the date of issue. Certificates to the face value of slightly more than \$62,000,000 were sold in the period May 1940, to March 31, 1941. War Savings Stamps provide a means whereby the investor can purchase War Savings Certificates in instalments of 25 cents. The stamps may be used instead of cash in the purchase of Certificates. Stamps to the value of \$3,070,988.00 were outstanding as at March 31, 1941.

The Dominion sold to the Bank of Canada on May 1, 1940, \$250,000,000 of one-year 1% Notes at par, together with \$75,000,000 Treasury Bills at an average discount equal to .739%. The proceeds of these issues were used to provide funds to enable the Foreign Exchange Control Board to purchase gold held by the Bank of Canada and foreign exchange owned by residents of Canada.

In order to provide in part for the redemption on June 1, 1940 of \$80,000,000 1½% bonds, the Dominion sold to the Bank of Canada and the chartered banks an issue of \$65,000,000 Five-year 2% Bonds at 99.375 and accrued interest, to yield 2.13%. This issue is dated March 1, 1940, and matures March 1, 1945.

On July 1, 1940, the 4% School Lands Debentures amounting to \$33,293,-470.85 held by the Provinces of Manitoba, Saskatchewan and Alberta were renewed for a further period of one year at the same interest rate.

On January 2, 1941, an issue of \$250,000,000 Two and one-half year 1½% Notes was sold to the chartered banks at 99.695, or a cost of 1.625% to maturity.

In June 1940, the Government commenced the sale of Non-interest Bearing Certificates, in response to a public demand for such a Government security by those who did not wish to receive an interest return on their investment. These Certificates mature on June 15, 1945, but are subject to redemption at the option of the holder at any time after six months from the date of issue. The Certificates are issued in any denomination of one dollar and over. As at March 31, 1941, Non-interest Bearing Certificates were outstanding in the amount of \$6,033,956.86.

The sale of three months Treasury Bills by public tender was continued during the fiscal year. These Bills are sold at a discount and issues are made twice monthly. The average yield on the Treasury Bills showed a steady decrease during the fiscal year. The yield to the purchaser ranged from a high of .742% on the issue dated April 1, 1940, to a low of .609% on the issue dated March 14, 1941. The amount of Treasury Bills outstanding on March 31, 1941, was \$230,000,000, an increase of \$75,000,000 during the fiscal year due to the issue originally to the Bank of Canada of bills to this amount referred to above.

POST OFFICE SAVINGS BANK

At the close of the fiscal year, the balance at the credit of depositors in the Post Office Savings Bank was \$22,176,632.54, a decrease of \$923,485.90 as compared with the balance held on March 31, 1940. Withdrawals for the year exceeded deposits by \$1,357,386.66. Accrued interest was added in the amount of \$433,900.76. Gold held on March 31, 1941, for the account of the Post Office Savings Bank, as provided for by Section 47, Chapter 15, R.S.C. 1927, amounted to \$2,217,663.25 (valued on the basis of \$20.671834 per fine ounce).

INVESTMENTS

SINKING FUNDS

Investments on account of Sinking Funds of various sterling loans were made during the year to an amount of \$2,118,051.61. A total of \$37,632,862.08 of the 3½% 1930-50 Stock and \$1,347,845.58 of cash held in the 1930-50 Sinking Fund were used for the redemption of the 3½% 1930-50 loan called April 17, 1940.

Stocks of other loans held in the Sinking Fund of the 4% 1940-60 loan amounting to \$12,942,939.64 were transferred to a Bond Holding Account to be repurchased later for the Sinking Funds of other Sterling Issues. In addition, \$11,988,041.99 of 4% 1940-60 Stock held in the 1940-60 Sinking Fund, and \$169,668.29 of cash, less a small amount of 15 cents to adjust conversion of sterling, were used for the redemption of the 1940-60 loan called October 1, 1940.

These transactions resulted in a net decrease in the Sinking Funds Account for the year of \$61,963,305.82, leaving a balance of \$5,232,761.34.

NATIONAL HARBOURS BOARD

During the year advances for capital purposes, treated in the accounts as Active Assets, were made to the National Harbours Board as follows: Churchill Harbour \$10,000; Montreal Harbour \$161,781.25, and Vancouver Harbour \$102,354.61, making a total of \$274,135.86. In the same period, loans were reduced by \$607,230.50 as follows: Churchill Harbour \$10,000.00; Montreal Harbour \$583,177.39, and Vancouver Harbour \$14,053.11. These transactions resulted in a net credit for the year of \$333,094.64.

CANADIAN FARM LOAN BOARD

During the year the Government purchased \$38,486.00 of the Capital Stock of the Canadian Farm Loan Board and \$800,000.00 of its 3½% bonds due January 2, 1960. As already reported, Capital Stock of the Board held by the Government in the amount of \$11,995.00, was cancelled. No advances were made during the year under The Canadian Fisherman's Loan Act, Chap. 52, Acts of 1935. As at March 31, 1941, the Board reported outstanding loans to farmers totalling \$37,142,737.88, secured by first mortgages in the amount of \$34,799,364.59, and by second mortgages in the amount of \$2,343,373.29. Real estate held by the Board amounted to \$326,567.98, and agreements for sale were carried at \$155,362.84. The Board also reported loans to fishermen outstanding as at March 31, 1941, in the amount of \$29,183.89.

SOLDIER AND GENERAL LAND SETTLEMENT LOANS

The aggregate of active loans outstanding on this account decreased during the year by \$2,149,839.00. This left a balance of total loans outstanding at the close of the year of \$52,207,540.29, of which the amount of \$35,679,622.80 is carried as an active asset, and the remaining amount of \$16,525,917.49 is carried as a non-active asset.

HOUSING LOANS, 1919

During the fiscal year four Provincial Governments reduced their indebtedness to the Dominion on account of housing loans made at the close of the Great War by \$1,633,500, accounted for as follows:

Province of Prince Edward Island.....	\$ 3,000 00
Province of Nova Scotia.....	245,000 00
Province of Manitoba.....	24,000 00
Province of British Columbia.....	1,361,500 00
	<hr/>
	\$ 1,633,500 00

The balance on account of such loans outstanding as at March 31, 1941, was \$870,500.00, accounted for as follows:

Province of Prince Edward Island.....	\$ 23,500 00
Province of Nova Scotia.....	157,000 00
Province of Manitoba.....	350,000 00
Province of British Columbia.....	340,000 00

DOMINION HOUSING ACT, 1935, AND NATIONAL HOUSING ACT, 1938

To the close of the fiscal year on March 31, 1941, 15,361 loans aggregating \$68,619,945, had been approved under the National Housing Act and under its predecessor Act, the Dominion Housing Act. Of this amount, the Dominion's share was \$17,411,516, of which \$14,589,775 had actually been disbursed.

Total receipts in respect of such loans to March 31, 1941, amounted to \$1,624,393.85, of which \$644,548.46 represented interest and \$979,845.39 repayment of principal, leaving a net capital investment by the Dominion on March 31, 1941, of \$13,609,929.61.

As at September 30, 1941, loans approved under Part I of the National Housing Act, and under its predecessor Act, the Dominion Housing Act, numbered 18,424 for an aggregate value of \$78,282,882. Of this amount \$21,155,655 represented loans approved under the Dominion Housing Act (October, 1935-July, 1938, inclusive) and \$57,127,227 represented loans approved under the National Housing Act (August, 1938-September, 1941, inclusive).

To September 30, 1941, the Dominion's share of all loans approved amounted to \$19,827,126, of which \$16,048,730 had been disbursed. The Dominion's share of loans cancelled and withdrawn amounted to \$1,132,352. At September 30, 1941, therefore, the commitment of the Government in respect of Housing Act loans was \$18,694,774.

Total receipts in respect of such loans to September 30, 1941, amounted to \$2,176,325.82, of which \$826,525.37 represented interest and \$1,349,800.45 repayment of principal, leaving a net capital investment by the Dominion on September 30, 1941, of \$14,698,929.55.

THE CANADIAN BROADCASTING CORPORATION

During the year, the Canadian Broadcasting Corporation repaid \$363,840.60 on account of loans for capital purposes made in the fiscal years 1937-38 and 1939-40. As at the close of the fiscal year the Corporation had loans outstanding to the Government of \$786,159.40.

MUNICIPAL IMPROVEMENTS ASSISTANCE ACT, 1938

Under the Municipal Improvements Assistance Act, 1938, the Government during the fiscal year approved loans in the amount of \$2,529,183.69 to municipalities to enable them to finance the construction of municipal self-liquidating projects. From the inception of the Act to March 31, 1941, the total loans approved aggregated \$7,800,937.18. The actual advances made during the fiscal year 1940-41 amounted to \$1,829,268.62. Interest to the amount of \$92,320.89 was received during the year, and repayments of principal amounted to \$111,016.87. The net amount of loans outstanding as at March 31, 1941, was \$5,644,606.66.

These loans bear interest at the rate of 2% per annum and are amortized over a period not longer than the estimated useful life of the project. The province in which the municipality is located is required to guarantee the payments of interest on and amortization of loans made under the Act within the Province.

LOANS TO PROVINCES

Under authority of the Unemployment and Agricultural Assistance Act, 1940, loans totalling \$1,971,890.96 secured by Provincial Treasury Bills, bearing interest at the rate of 3% per annum, were made to the Provinces of Saskatche-

wan and British Columbia. Two loans totalling \$1,700,000 were made to Saskatchewan to enable the Province to meet, in part, its share of relief costs for 1940-41. One loan of \$271,890.96 was made to British Columbia to cover in part the Province's share of relief costs for its fiscal year, 1939-40.

A statement showing the amount of loans and repayments made during the fiscal year, and the total of such loans to the four Western Provinces under the annual relief acts outstanding at the end of the year follows:

Under authority of Order in Council, P.C. 4891 of September 17, 1940, passed pursuant to the War Measures Act, a loan of \$57,600.00 was made to the Province of Saskatchewan to enable the Saskatchewan Power Commission to extend its system to a bombing and gunnery school, at Dafoe, Saskatchewan. This loan bears interest at the rate of $3\frac{1}{2}$ per cent per annum, payable half-yearly, and the principal amount of the loan is to be repaid by thirty equal semi-annual instalments.

CANADIAN NATIONAL RAILWAYS

In addition to the payment of \$16,965,044.18 representing the net income deficit of the Canadian National Railways for the calendar year 1940, which is included in Expenditures under Government Owned Enterprises, the Government advanced \$105,573,445.90 to the Railway Company for capital purposes, and for retirement of maturing obligations under the following authorities:—

Canadian National Railways Financing and Guarantee Act, 1940 (capital expenditures and retirement of miscellaneous obligations).....	\$ 7,572,579 77
Canadian National Railways Financing and Guarantee Act, 1940 (Purchase of Grand Trunk Railway Company of Canada Perpetual 4% Consolidated Debenture Stock).....	94,150,866 13
Temporary Loan in anticipation of the passing of the 1941 Budget.....	3,850,000 00
	\$ 105,573,445 90

The Dominion completed its purchases, under authority of the War Measures Act and the War Appropriation Act, of railway equipment for the Railway Company, with the payment during the year of \$8,690,090.86. Equipment, costing \$14,879,524.78, was purchased in the fiscal years 1939-40 and 1940-41, and has been leased to the Railway Company under a hire-purchase agreement extending over a period of fifteen years. The Railway Company paid \$547,173.07 to the Government as an instalment under the terms of a hire-purchase agreement relating to certain equipment purchased by the Government in 1935-36 and 1936-37.

CANADIAN PACIFIC RAILWAY COMPANY

The Dominion completed its purchases, under authority of the War Measures Act and the War Appropriation Act, of railway equipment for the Canadian Pacific Railway Company, with the payment during the year of \$7,047,582.13. Equipment costing \$9,951,489.64, was purchased during the fiscal years 1939-40 and 1940-41, and has been leased to the Railway Company under a hire-purchase agreement extending over a period of fifteen years. The Railway Company paid \$440,769.23 to the Government as the fourth instalment under the terms of a hire-purchase agreement relating to certain equipment purchased by the Government in the fiscal years ended March 31, 1936, 1937 and 1938.

During the fiscal year the Railway Company repaid \$110,940 and \$100,000 on account of loans for Special Works Program and loans for betterment or repair of railway equipment, respectively.

CANADIAN GOVERNMENT MERCHANT MARINE, LIMITED

During the fiscal year the Government advanced \$750,000 to the Canadian Government Merchant Marine, Limited, in order to provide working capital for the operation of certain ships seized in prize, and either requisitioned for use by the Canadian Government or condemned by the Court as prize.

FOREIGN GOVERNMENTS

No payments, either on account of interest or principal were received during the fiscal year from the Governments of Roumania or Greece in respect of their indebtedness to the Dominion.

FOREIGN EXCHANGE CONTROL BOARD

During the year there was advanced by way of a loan to the Foreign Exchange Control Board, \$325,000,000.00 to enable them to purchase, under the Foreign Exchange Acquisition Order, the gold and foreign exchange of the Bank of Canada and the foreign exchange holdings of other Canadian residents. The funds for this purpose were obtained by the issue and sale by the Government of Canada to the Bank of Canada, of one year notes to the amount of \$250,000,000 and Treasury Bills to the amount of \$75,000,000. The loan to the Board appears in the balance sheet of the Dominion as an asset, and is offset by a similar amount in the total funded debt of Canada.

TOTAL INCREASE IN ACTIVE INVESTMENTS

As a result of the transactions outlined above, the total active investments of the Dominion Government increased during the year by an amount of \$387,370,459.20. Offset against this figure however is an amount of \$25,000,000 to provide for possible losses on ultimate realization of various loans and advances. This leaves a net increase in active investments of \$362,370,459.20.

OLD AGE PENSIONS AND PENSIONS FOR BLIND PERSONS

During the year Old Age Pensions and Pensions for Blind Persons were paid in the nine provinces and in the Northwest Territories. Appendix No. 23 (page 101) shows by provinces the number of pensioners, average monthly pension, Dominion Government's contributions for the fiscal year and the total contributions by the Dominion Government from the inception of the Act.

ASSISTANCE TO RAILWAYS

As required by Sec. 24 of the Canadian National Railways Capital Revision Act, 1937, a detailed statement showing total assistance granted in various forms to all Railways was included as an appendix to the Public Accounts of Canada for the fiscal year 1937-38. This statement has been revised to March 31, 1941, and is included in the Public Accounts for the current year as Appendix No. 24 (pages 102-143).

GUARANTEED SECURITIES

CANADIAN NATIONAL RAILWAY COMPANY

Railway securities guaranteed by the Dominion as to the payment of principal and interest were outstanding at March 31, 1941, in the amount of \$836,398,498.06, a reduction of \$1,310,255.07 during the fiscal year. Railway securities guaranteed by the Dominion as to the payment of interest only, were outstanding on the same date in the amount of \$117,072,698.81, a reduction of \$99,134,442.86 during the fiscal year. This latter reduction was due to the purchase of £20,370,091 of Grand Trunk Railway Company of Canada Perpetual 4% Consolidated Debenture Stock, as a part of the Government's program of repatriating securities held by British investors. Loans aggregating \$94,150,866.13 were made by the Government to the Railway Company to provide for the purchase of this stock held by the public.

GRAIN MARKETING

Under authority of an amendment to the Canadian Wheat Board Act, 1935 (4 George VI Chapter 25), a price of 70 cents per bushel, basis No. 1 Northern, Fort William, was fixed as the basic price at which the Canadian Wheat Board was willing to pay for all wheat of the 1940 crop delivered to the Board by producers thereof. The Board's operations were financed by loans obtained from a group of chartered banks under guarantee of the Dominion Government. The amount of the guaranteed bank loans outstanding at March 31, 1941, which mainly related to the purchase of the 1939 and 1940 wheat crops was \$101,052,679.09.

The guarantee of the Dominion to the Winnipeg Grain and Produce Clearing Association, Limited, arising out of transactions and trades made by the Canadian Wheat Board, continues. No liability in connection with this guarantee accrues from day to day, as margin deposits are made by the Board to the Association daily.

SEED GRAIN LOANS

Under the terms of The Seed Grain Loans Guarantee Act, 1938, the Dominion provided seed grain assistance to farmers in the Provinces of Saskatchewan and Alberta for the crop year 1938. The principal amount authorized by the Act to be guaranteed, was \$14,500,000 with respect to Saskatchewan, and \$1,900,000 with respect to Alberta. The principal amount guaranteed in the case of Alberta was \$1,089,482.84, and the principal amount outstanding as at January 31, 1941, was \$867,557.59. In the case of Saskatchewan, a general guarantee was given for an amount not exceeding the maximum amount authorized.

NATIONAL HOUSING ACT

Under the Dominion Housing Act, 1935, and the National Housing Act, 1938, the Dominion has accepted and is accepting certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities.

The manner in which losses in respect of any loan are to be borne by the Dominion and the lending institution is fixed by the contract. The general principle is that the Dominion bears two-thirds of the loss if at the time the loss is sustained the principal amount of the loan repaid, less any other amounts due, is equal to or less than the amount advanced by the Dominion and one-third of the loss if at the time the loss is sustained the principal amount repaid, less any other amounts due, is more than the amount advanced by the Dominion. In the case of small loans (that is, loans not in excess of \$4,000 in the case of a single family dwelling or not in excess of \$700 per habitable room in the case of a multiple family dwelling) the share of the loss to be borne by the Dominion is not more than 80 per cent and not less than 50 per cent of the loss. The above provisions apply to loans made under both the National Housing Act, and its predecessor Act, the Dominion Housing Act. Under the National Housing Act, a new provision was added to encourage the making of small loans in such small or remote communities and in such districts of other communities as may be designated by the Minister of Finance in any contract. In respect of such loans, the Dominion has agreed in contracts with certain lending institutions to pay losses sustained by any such lending institution up to certain amounts determined by the contract which are not less than 7 per cent and do not exceed 25 per cent of the total amount of such loans made in such areas by each such lending institution.

The total amount of loans approved at March 31, 1941, under the Dominion Housing Act, 1935, and the National Housing Act, 1938, was \$68,619,945. Losses realized by the Dominion as of that date amounted to \$831.02.

HOME IMPROVEMENT LOANS

Under the terms of The Home Improvement Loans Guarantee Act, 1937, \$49,959,732.72, had been loaned up to March 31, 1941, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans was limited to 15 per cent of the aggregate of such loans made by each lending institution. As at October 30, 1940, after four years of operation, the \$50,000,000 loan authorization having been substantially exhausted, the Government's undertaking to provide a guarantee for this type of loan was terminated. After this date, loans made by lending institutions were not accepted for guarantee by the Dominion. As four hundred and eighty-four claims for losses in the amount of \$132,893.15 were paid to March 31, 1941, of which \$3,053.29 has been recovered, the contingent liability of the Government at that date was \$7,361,066.76. It will be noted that the total of claims paid less recoveries amounted to only .260 per cent of the total amount of the loans made, and as at March 31, 1941, over 71.67 per cent of the total amount of all loans made had been repaid.

YOUNG MEN'S CHRISTIAN ASSOCIATIONS

Under the terms of Order in Council of February 20th, 1941, P.C. 1279, passed under the provisions of the War Measures Act, the Government guaranteed the repayment of bank advances obtained by the National Council of Young Men's Christian Associations (War Services Account). This association required funds for carrying on its services prior to the time that the receipts from the united war charities campaign were obtained. The amount of the guarantee authorized was \$235,000 and the amount of the guaranteed bank loan outstanding on March 31, 1941, was \$68,732.20.

GUARANTEED BANK LOANS RE DEPARTMENT OF MUNITIONS AND SUPPLY

The Government guaranteed the repayment of bank loans together with interest thereon obtained by certain contractors in connection with contracts placed by the Department of Munitions and Supply. As at March 31, 1941, the amount of such guaranteed bank loans authorized was \$2,425,000, the amount actually outstanding was \$1,044,816.

TOTAL GUARANTEED OBLIGATIONS OUTSTANDING

Outstanding guarantees of the Dominion of Canada (more fully listed in Schedule X) were as follows:—

Railway and other securities in hands of public—	
Guaranteed as to principal and interest.....	\$ 866,943,680 41
Guaranteed as to interest only.....	117,072,698 81

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In this year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund, and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises was also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under the various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include non-active loans and write-down of assets, in addition to all other expenditures.

† Includes \$25,000,000 as reserve against possible losses on assets.

NOTE.—The above table is based on the classification of accounts adopted for the fiscal year 1936, and appropriate adjustments for the years 1930-35 were made for comparative purposes. Instead of showing Surplus or Deficit in Consolidated Fund as in the preceding table, the difference between Total Revenues and Total Disbursements, in other words, the increase in Net Debt, is shown in the final column.

* Includes net credit of \$1,023,058.94 resulting from Canadian National Railways Capital Revision Act, 1937.

This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest, however, was never taken into the accounts of the Dominion but interest amounting to \$530,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways' Capital Revision Act of 1937.

(a) Amount paid by Dominion in acquiring 600,000 shares of the capital stock of the Canadian Northern Railway Company.

(b) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company (See detailed explanation in Appendix 24I).
(c) Of this amount \$7,380,912 was not used for capital expenditures but represented the balance due by the Company under agreement made in 1883 for the creation of a fund to be held by the Government to guarantee a dividend of 3 per cent annu for ten years on the Company's outstanding stock in an endeavour to assist in financing construction through the sale of additional stock. The amount on deposit with the Government was, at all times, more than sufficient to meet the payments which, under the agreement, the Government undertook to make. The obligation of the Company was fully discharged in 1886, some years in advance of its due date (See Note E to Appendix 24E, Page 131).

(a) Difference between conversion of pound sterling at \$4.86 $\frac{1}{2}$ and at \$4.86 charged to Consolidated Fund of Canada.

(b) Adjustments to loans under authority of the Canadian National Railways Capital Revision Act of 1937.—Capital expenditures on wharves (\$1,006,527.61) transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway (\$600,369.96) transferred to the Department of Transport.

(c) This amount represents losses in operation of \$973,823,420.38; losses amounting to \$8,359,361.02 during years 1937 to 1940 due to line abandonments in respect of which the Government has not made cash reimbursements to the railway and net capital loss of \$1,474,971.24 on sale of S.S. "Prince David" and S.S. "Prince Robert" less the capital gain of \$2,503,500.00 on redemption of an estimated £22,500,000 of Grand Trunk Railway 4% Perpetual Debenture Stock.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government.—Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) Of this amount \$2,853,912 was originally due February 1st, 1884, and \$4,527,000 on November 7th, 1888. Later, the aggregate of these two amounts, \$7,380,912 was consolidated with the construction loan of \$21,650,700; the security was rearranged and the whole was made payable on May 1st, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,793,014 acres of a land grant valued at \$1.50 per acre, amounting to \$10,189,524.33. This amount included interest of \$308,609.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Balance Sheet of the Public Accounts of Canada under assets, Miscellaneous Current Accounts, Schedule "K".

CALCULATION OF ACCRUED INTEREST ON LOANS

NOTE.—This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest however was never taken in to the accounts of the Dominion, but interest amounting to \$530,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

The Honourable J. L. ILSLEY,
Minister of Finance.

SIR,—I have the honour to submit to you the Public Accounts of the Government of the Dominion of Canada for the fiscal year ended March 31, 1942.

CLASSIFICATION OF ACCOUNTS

The broad classification of the public accounts, which is followed herein, deals on the revenue side with Ordinary Revenues, Capital Refunds, Special Receipts and Credits, and Other Receipts and Credits; and on the expenditure side with Ordinary Expenditures, Capital Expenditures, War Expenditures, Special Expenditures, Operating Deficits of and Non-active Advances to Government-owned Enterprises, and Other Charges including Write-down of Assets.

ORDINARY REVENUES

The receipts for the year classified as Ordinary Receipts amounted to \$1,463,824,202.71. This total represents 98.3 per cent of the grand total of revenues for the year, and as it includes all receipts from higher rates of tax and new taxes imposed to meet in part war expenditures, a comparison of this total should not be made with Ordinary Revenues received during pre-war years. The following summary gives the revenues, by main sources, for 1941-42 compared with those received during 1940-41:

CAPITAL REFUNDS

Refunds of previous years' expenditures credited to Capital Account during the year amounted to \$1,021,653.03, of which \$983,806.08 represented insurance

DEPARTMENT OF FINANCE

moneys received on loss of the Prince Edward Island Car Ferry S.S. *Charlottetown*. The remainder, namely \$37,846.95, was divided as follows: Public Works, \$13,208.83; Railways, \$16,402.70; and Canals, \$8,235.42.

SPECIAL RECEIPTS AND CREDITS

Special Receipts and Credits for the year amounted to \$21,060,093.71, comprising (a) refunds of previous years' special (relief) expenditure, \$101,739.98; (b) refunds of previous years' war expenditure \$13,200,180.08, representing, in the main, adjustments and transfers between the Departments of National Defence and Munitions and Supply of war expenditures made in previous fiscal years. (The receipts arising out of these adjustments are necessarily offset by increases in war expenditures for the fiscal year 1941-42); (c) war and special voluntary donations, \$459,106.72; (d) special receipts arising out of the war \$3,183,466.02, representing such receipts as proceeds from sales of salvage stores and property, dependents' allowances and assigned pay recovered from British Air Ministry, rentals, interest on working capital advances and sundry; (e) net income surplus of Canadian National Railways for the calendar year 1941, \$4,016,326.74; and (f) capital gain of \$99,274.17 on redemption of Grand Trunk Railway 4% Perpetual Debenture Stock at £103-17-4 per £100 converted at \$4.45 to the pound. The last two items are offset on the expenditure side under non-active accounts by reason of increases arising therefrom in the Dominion's equity in the Canadian National Railways.

A statement of Special Receipts and Credits follows:—

OTHER RECEIPTS AND CREDITS

Other Receipts and Credits for the year totalled \$2,630,393.52, of which \$32,798.47 represents payments from the National Harbours Board (\$31,298.47 in reduction of Halifax Harbour debentures and \$1,500.00 in reduction of Three Rivers Harbour debentures) and \$2,597,595.05 represents book-keeping entries covering write-downs from non-active assets. Of this latter total, \$58,407.84, representing the established losses during the year in Seed Grain

and Relief Accounts under the administration of the Department of Mines and Resources, was written off to Consolidated Fund pursuant to Chapter 51, Statutes of 1927. The remainder, namely \$2,539,187.21, was written off to Consolidated Fund from Canadian National Railways Securities Trust Stock, due to line abandonments during the calendar year, 1941. These two write-downs to Consolidated Fund from non-active account resulting in a reduction in non-active assets, necessarily appear also on the expenditure side, leaving the net debt unchanged.

ORDINARY EXPENDITURES

Ordinary Expenditures for the year totalled \$444,777,695.70. A few of the larger contractual and uncontrollable items such as interest and other charges on the public debt, pensions, unemployment insurance, post office expenditures, subsidies and payments to Provinces under the Dominion-Provincial taxation agreements aggregated \$331,947,609.77, or approximately 75 per cent of the total. A summary of such expenditures compared with those for 1940-41 follows:—

WAR EXPENDITURES

Total expenditures for the year under the War Appropriation Acts, 1941, without taking into account any commitments entered into but not paid at the end of the year, nor the assistance given to the Government of the United Kingdom by means of the accumulation of sterling balances or the repatriation of Canadian securities held in the United Kingdom, aggregated \$1,382,490,828.35. Included in this total is an amount of \$42,816,675.93,

DEPARTMENT OF FINANCE

representing loans and advances classified as active assets, leaving net War Expenditures at \$1,339,674,152.42. The items charged to Active Assets are:—

Purchase of railway equipment leased to Canadian National Railways.....	\$ 1,027,425 52	
Advances for working capital, Canadian National Railways.....	17,121,725 37	
Department of Munitions and Supply, Advances to commodity and other companies.....	24,657,525 04	
Advance for purchase of Second Victory Loan bonds to be sold in the Northwest Territories.....	10,000 00	
	<hr/>	\$ 42,816,675 93

Total net war expenditures classified by departments is given on page 48 with further details shown in Appendix No. 12, page 88, and may be summarized as follows:—

National Defence—		
Army.....	\$ 511,169,247 60	
Navy.....	129,367,632 12	
Air.....	370,648,735 99

Agriculture.....	27,387,361 21	
Finance.....	16,725,076 21	
Other Departments.....	31,684,975 20	
	<hr/>	\$ 1,339,674,152 42

The total of \$24,657,525.04 of net advances to commodity and other companies charged to active assets, represents advances made to provide working capital for crown corporations formed by the Department of Munitions and Supply, as well as advances made to private corporations to provide additional plant and equipment facilities. The advances to the commodity companies have been brought to account as assets because the funds either represent cash balances in the hands of the corporations concerned or are invested in commodities such as rubber, leather, silk and wool, which are readily marketable after the war as commercial commodities. The advances made to the private corporations are repayable over a specified period, and accordingly have also been brought to account as active assets.

The foregoing total of net war expenditures of \$1,339,674,152.42 does not take into account advances made under authority of section 3 of the War Appropriation Act which are recoverable from the Government of the United Kingdom or from other allied governments. These recoverable advances, which as of March 31, 1942 amounted to \$121,279,575.97, were substantially offset by amounts payable by Canada as of that date covering accounts and commitments which were not paid or adjusted at the time the books of the Dominion for the fiscal year were closed.

The amounts owing to Canada in respect of the recoverable advances made under section 3 of the War Appropriation Act were divided as follows:—

Government of the United Kingdom:		
Army, Navy and Air Accounts.....	\$ 13,909,951 78	
Equipment and Royal Air Force Special Schools.....	103,684,929 31	
Internment operations.....	833,818 48

		<hr/>
		\$ 121,279,575 97

With respect to assistance given to the Government of the United Kingdom by means of the repatriation of Canadian securities, there was only one delivery of securities received before the close of the fiscal year. The value of these securities at the vesting prices (less interest included therein) amounted to \$222,723,985.50. This transaction was carried out under the provisions of The War Appropriation (United Kingdom Financing) Act, 1942, which received Royal Assent on March 27, 1942. The main provisions of this Act were:—

- (1) the granting of a billion dollar gift to the Government of the United Kingdom to finance the purchase in Canada of foodstuffs, raw materials and munitions of war and to defray other expenditures incurred in Canada for war purposes;
- (2) the granting of authority to repatriate all Dominion of Canada direct and guaranteed securities and other Canadian National Railway securities held by British investors; and
- (3) the conversion of sterling balances accumulated to the credit of the Government of Canada to an amount equivalent to \$700 million (at the exchange rate of \$4.45 to the pound sterling) into a Canadian dollar obligation which is not to bear interest until after the termination of the war.

Additional repatriation of securities and the transactions with respect to the billion dollar gift, and the conversion of sterling balances to an amount equivalent to \$700,000,000, took place after the close of the fiscal year 1941-42, and the government's disbursements in connection therewith will appear in the public accounts for the fiscal year 1942-43.

SPECIAL EXPENDITURES

Expenditures classified as special totalled \$63,975,772.56. Of this amount \$8,500,358.67 represents outlay for relief and other projects, as detailed on pages 49 and 50. Expenditures under the Prairie Farm Assistance Act, 1939, consisting of advances to the Prairie Farm Emergency Fund and costs of administration, totalled \$12,270,821.81. The Wheat Acreage Reduction plan administered by the Department of Agriculture resulted in an outlay of \$30,633,763.96, of which \$29,654,228.91 represented bonus awards to farmers under the plan, and \$979,535.05 costs of administration. The remaining item in this category amounting to \$12,570,828.12 represents an amount added to the reserve account to meet the deficit of the Canadian Wheat Board, calculated as at July 31, 1941, not previously provided for.

GOVERNMENT OWNED ENTERPRISES

Expenditures under this heading were made to the amount of \$1,214,255.57, of which the sum of \$456,166.13 was charged to Consolidated Fund, and the balance to Loans and Advances, Non-active. The amount charged to Consolidated Fund consisted of net income deficits for the calendar year 1941 on account of the Prince Edward Island Car Ferry and Terminals, \$423,650.75, and the National Harbours Board, Churchill Harbour, \$32,515.38.

Non-active loans and advances to government owned enterprises of \$758,089.44 were made to the National Harbours Board for the following purposes: Chicoutimi Harbour, for reconstruction and capital expenditures, \$120.50; Halifax Harbour, for reconstruction and capital expenditures, \$3,436.15; Saint John Harbour, \$7,905.19, of which \$2,000 was for retirement of debentures and \$5,905.19 for reconstruction and capital expenditures; Quebec Harbour, \$404,627.60, of which \$400,000 was for retirement of debentures and \$4,627.60 for

reconstruction and capital expenditures; and Montreal Harbour (Jacques Cartier Bridge), \$342,000, for advances for guaranteed interest.

OTHER CHARGES, INCLUDING WRITE-DOWN OF ASSETS

Total Other Charges, the final main category of expenditures, aggregated \$31,993,732.37. The principal item included in this total is a charge of \$25,000,000.00 made to increase the reserve to meet possible losses on ultimate realization of assets treated as "active" in the Dominion's balance sheet. In addition, the following write-offs were made from Active Assets to Consolidated Fund: reduction of Soldier and General Land Settlement Loans, \$270,826.47; reduction of Assisted Passage Loans (Empire Settlement Advances) \$96.94; and cancellation of Canadian Farm Loan Board Capital Stock, \$9,613.00. These write-offs from Active Assets, plus the provision for a further reserve of \$25,000,000, resulted in a proportionate increase in the net debt of the Dominion.

The total write-off from non-active assets to Consolidated Fund included two items: (a) \$2,539,187.21 written off from the Canadian National Railways Securities Trust Stock, representing line abandonments during the calendar year 1941; and (b) \$58,407.84, representing the yearly established losses on Seed Grain and Relief Accounts administered by the Department of Mines and Resources. Both of these items, by reason of their being non-active assets, and accordingly already included in the net debt of Canada, are offset by similar amounts already referred to under Other Receipts and Credits.

The remaining debit items classified as Other Charges, totalling \$4,115,600.91, relate to the Canadian National Railways Securities Trust Stock. The amount of this stock, representing the proprietor's equity of the Dominion in the Canadian National Railways, was increased by \$4,016,326.74 due to the surplus earnings of the System for the calendar year 1941, and also by \$99,274.17 due to the capital gain on redemption of Grand Trunk Railway 4¹/₂ consolidated perpetual debenture stock at a price below par in Canadian funds. The Canadian National Railways Securities Trust Stock is carried in the Dominion's books as a non-active asset and as these two items necessarily appear as credits to Consolidated Fund under the heading Special Receipts and Credits, the net debt of Canada remains unchanged.

OVER-ALL DEFICIT OR INCREASE IN NET DEBT

The sum of Ordinary Expenditures, Capital Expenditures, War Expenditures, Special Expenditures, Operating Losses of and Non-active Advances to Government Owned Enterprises, and Other Charges including Write-down of Assets, gives the total expenditures of the Dominion Government during the fiscal year 1941-42. This total amounted to \$1,885,066,055.21. As total revenues, including Special Receipts and various credits, aggregated \$1,488,536,312.97, the over-all deficit or increase in net debt during the year was \$396,529,712.24.

Total net debt of the Dominion as at the close of the fiscal year was \$4,045,221,160.80.

The increase of \$396,529,712.24 in the net debt during the fiscal year is accounted for as follows:—

PERCENTAGE DISTRIBUTION OF REVENUES AND EXPENDITURES, 1941-42

The following table shows the percentage distribution of revenues and expenditures for a number of important items. Receipts from various taxes and other sources of revenue are shown as percentages both of total revenues and of total expenditures. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditures and of total revenues. The purpose of this table is to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by the war and the several important services or obligations of government. For example it will be seen that expenditures charged directly to war comprised 71·07% of the grand total of expenditures, and that 90 % of total revenues was used to meet direct war expenditures.

LOANS

There were two major public financing operations in the fiscal year ended March 31, 1942.

The Victory Loan 1941 was sold in a three weeks' campaign during June 1941, the bonds being dated June 15th. There were two maturities; a 2% issue maturing December 15, 1946, redeemable at 100% and non-callable to maturity, and a 3% issue maturing June 15, 1951 at 101% callable at 101% on or after June 15, 1950. The short term bonds were sold at 99% and accrued interest to yield 2.19%, while the long term bonds were priced at 100% and accrued interest to yield 3.09%. The 5% National Service Loan bonds maturing November 15, 1941, were accepted in conversion for bonds of either issue, they were valued at 102.15% and a total of \$106,441,000 was converted.

The total of new bonds sold in this operation were as follows:—

2%—1946.....	\$ 193,286,000 00	
3%—1951.....	643,534,250 00	
		\$ 836,820,250 00

The total number of subscribers was 968,259.

The Second Victory Loan was issued in the latter part of February 1942, the bonds being dated March 1, 1942. There were three maturities; 1½% bonds maturing September 1, 1944, and 2½% bonds maturing March 1, 1948, at 100%; and 3% bonds maturing March 1, 1954 at 101%. The first two issues are non-callable to maturity, the 3% bonds are callable at 101% and accrued interest on or after March 1, 1952. They were all priced at 100% and accrued interest to yield 1.50%, 2.25% and 3.07% respectively. Bonds of two maturing loans were accepted in conversion for the new bonds on the following basis; 1½% bonds maturing May 15, 1942, at 100.59% and 2% bonds maturing June 1, 1942, at 100.80%. The total amount converted was \$153,579,000.

The totals of new bonds sold in the operation were as follows:—

1½%—1944.....	\$ 57,169,000 00	
2½%—1948.....	269,879,000 00	
3%—1954.....	669,658,900 00	
		\$ 996,706,900 00

The total number of subscribers was 1,681,267.

Other financing operations during the year were as follows:—

On May 1, 1941, an issue of \$10,000,000 two-year 2½% promissory notes was sold to certain banks in New York to provide in part New York Funds for the redemption of an issue maturing on that date.

Also on May 1, 1941, an issue of \$250,000,000 one-year 1% notes was sold to the Bank of Canada to provide funds to pay off obligations in similar amount maturing on that date.

On October 16, 1941, an issue of \$200,000,000 three-year, 1½% notes was sold to the chartered banks and the Bank of Canada at 99.27% and accrued interest to provide funds to redeem \$200,000,000 of 2% notes maturing on that date.

The sale of War Savings Stamps and Certificates was continued throughout the year. The total of Certificates (face value) outstanding as at March 31, 1942 amounted to \$159,566,835 and stamps outstanding on that date totalled \$4,020,694.75.

Sales of Non-interest Bearing Certificates also were continued. On March 31, 1942 Certificates were outstanding to a total of \$9,110,045.92.

Three months' Treasury Bills continued to be offered every fortnight throughout the year. The yield to the purchaser varied from a high of .600% on the April 2, 1941 issue to a low of .539% on the November 28, 1941 issue. The amount of Treasury Bills outstanding as at March 31, 1942, was \$270,000,000 an increase of \$40,000,000 during the fiscal year.

On July 1, 1941, the 4% School Lands Debentures, amounting to \$33,293,470.85, held by the three prairie Provinces, were renewed for a further period of one year.

DEPARTMENT OF FINANCE

POST OFFICE SAVINGS BANK

At the close of the fiscal year, the balance at the credit of depositors in the Post Office Savings Bank was \$21,671,413.38, a decrease of \$505,219.16 as compared with the amount held on March 31, 1941. Withdrawals for the year exceeded deposits by \$928,981.29. Accrued interest was added in the amount of \$423,762.13. Gold held on March 31, 1942 for the account of the Post Office Savings Bank, as provided for by Section 47, Chapter 15, R.S.C. 1927, amounted to \$2,167,141.34 (valued on the basis of \$20.671834 per fine ounce).

UNEMPLOYMENT INSURANCE FUND

Pursuant to Section 77 of the Unemployment Insurance Act, 1940, there has been established a special account in the Consolidated Revenue Fund called the Unemployment Insurance Fund. As at the close of the fiscal year ended March 31, 1942, this fund amounted to \$43,961,216.68, made up of cash \$5,213,277.40 and investments plus accrued interest, \$38,750,969.28. The distribution between cash and bond holdings is shown in Schedule "S", page 24, and the details of bond purchases are shown as Appendix No. 10, page 86.

INVESTMENTS

SINKING FUNDS

Investments on account of Sinking Funds were made during the year to an amount of \$486,267.63. This amount together with the \$5,232,761.34 held at the close of the preceding fiscal year was written off to Redemption of Debt as the three sterling issues (namely the 4% loan of 1953/58, the 3¼% loan of 1950/55 and the 3¼% loan of 1958/63) for which Sinking Funds were carried were vested by the Government of the United Kingdom in August, 1941, and then purchased by the Government of Canada and cancelled.

As a result of these transactions no sinking funds were held at the close of the fiscal year.

NATIONAL HARBOURS BOARD

During the year, advances for capital purposes, treated in the accounts as Active Assets, were made to the National Harbours Board as follows: Churchill Harbour, \$25,000.00; Montreal Harbour, \$221,437.43; and Vancouver Harbour, \$8,355.50, making a total of \$254,792.93. In the same period, loans were reduced by \$1,235,386.79 as follows: Churchill Harbour, \$25,000.00; Montreal Harbour, \$1,172,016.78; and Vancouver Harbour, \$38,370.01. All these transactions resulted in a net credit for the year of \$980,593.86.

CANADIAN FARM LOAN BOARD

During the year the Canadian Farm Loan Board repurchased from the Government, \$1,000,000.00 of its 3½% bonds due January 2, 1960, thereby reducing the amount of its bonds held by the Government to \$29,200,000.00. Capital stock of the Board to the amount of \$25,427.00 was purchased during the year by the Government, and as previously reported, Capital stock in the amount of \$9,613.00 was cancelled. No advances were made during the year under The Canadian Fisherman's Loan Act, Chap. 52, Statutes of 1935. As at March 31, 1942, the Board reported outstanding loans to farmers totalling \$36,292,895.43, secured by first mortgages in the amount of \$34,526,666.58, and by second mortgages in the amount of \$1,766,228.85. Real estate held by the Board amounted to \$347,707.93, and agreements for sale were carried at \$503,607.96. The Board also reported loans to fishermen outstanding as at March 31, 1942 in the amount of \$24,673.68.

SOLDIER AND GENERAL LAND SETTLEMENT LOANS

The aggregate of active loans outstanding on this account decreased during the year by \$1,791,279.32. This left a balance of total loans outstanding at the close of the year of \$50,414,260.97, of which the amount of \$33,888,343.48 is carried as an active asset, and the remaining amount of \$16,525,917.49 is carried as a non-active asset.

HOUSING LOANS, 1919

During the fiscal year provincial governments reduced their indebtedness to the Dominion on account of housing loans made at the close of the last war (1914-18) by \$740,000.00 as follows:—

Province of Nova Scotia.....	\$ 50,000 00
Province of Manitoba.....	350,000 00
Province of British Columbia.....	340,000 00
	<hr/>
	\$ 740,000 00

The balance on account of such loans outstanding as at March 31, 1942, was reduced to \$130,500.00 as follows:—

Province of Prince Edward Island.....	\$ 23,500 00
Province of Nova Scotia.....	107,000 00
	<hr/>
	\$ 130,500 00

DOMINION HOUSING ACT, 1935, AND NATIONAL HOUSING ACT, 1938

To the close of the fiscal year on March 31, 1942, 18,521 loans aggregating \$76,784,145, had been approved under the National Housing Act and under its predecessor Act, the Dominion Housing Act. Of this amount, the Dominion's share was \$19,196,036, of which \$18,081,128 had actually been disbursed.

Total receipts in respect of such loans to March 31, 1942, amounted to \$2,887,267.13, of which \$1,060,234.11 represented interest and \$1,827,033.02 repayment of principal, leaving a net capital investment by the Dominion as at March 31, 1942, of \$16,254,094.98.

As at September 30, 1942, loans approved under Part I of the National Housing Act, and under its predecessor Act, the Dominion Housing Act, numbered 18,765 for an aggregate value of \$77,515,218. Of this amount \$19,619,442 represented loans approved under the Dominion Housing Act (October, 1935-July, 1938, inclusive) and \$57,895,776 represented loans approved under the National Housing Act (August, 1938-September, 1942, inclusive).

To September 30, 1942, the Dominion's share of all loans approved and the commitment of the Government in respect of Housing Act loans amounted to \$19,378,804, of which \$18,888,444 had been disbursed.

Total receipts in respect of such loans to September 30, 1942, amounted to \$3,584,617.46, of which \$1,283,333.22 represented interest and \$2,301,284.24 repayment of principal, leaving a net capital investment by the Dominion as at September 30, 1942, of \$16,587,159.76.

THE CANADIAN BROADCASTING CORPORATION

During the year the Canadian Broadcasting Corporation repaid \$282,760.63 on account of loans for capital purposes made in the fiscal years 1937-38 and 1939-40. As at March 31, 1942, the Corporation had loans outstanding to the Government of \$503,398.77.

MUNICIPAL IMPROVEMENTS ASSISTANCE ACT, 1938

No new loans under the Municipal Improvements Assistance Act, 1938, were approved during the fiscal year 1941-42. Total loans approved from the inception of the Act to March 31, 1942, aggregated \$7,735,122.12. The actual advances made during the fiscal year 1941-42 amounted to \$600,637.55, and repayments of principal received totalled \$268,983.56. Interest to the amount of \$114,823.88, was received during the year. The net amount of loans outstanding as at March 31, 1942, was \$5,976,260.65.

These loans were made to Municipalities to enable them to finance the construction of municipal self-liquidating projects. They bear interest at the rate of 2% per annum, and are amortized over a period not longer than the estimated useful life of the project. The province in which the municipality is located is required to guarantee the payment of interest on and amortization of loans made under the Act within the Province.

LOANS TO PROVINCES

As was shown in the Public Accounts for the fiscal year ended March 31, 1941, loans made to the Western Provinces under authority of the several Relief Acts and outstanding at the close of that year totalled \$157,492,294.23.

No loans were made during the year ended March 31, 1942, and as repayments were received from the Provinces of Saskatchewan and Alberta in the amounts of \$171,272.74 and \$46,000.00 respectively, the net amount outstanding as of March 31, 1942, was \$157,275,021.49, divided by Provinces as follows:—

Province of Manitoba.....	\$ 25,217,214 18
Province of Saskatchewan.....	71,341,419 95
Province of Alberta.....	25,972,000 00
Province of British Columbia.....	34,744,387 36
	<hr/>
	\$ 157,275,021 49

The loan of \$57,600.00 made last fiscal year to the Province of Saskatchewan to enable the Saskatchewan Power Commission to extend its electrical transmission system to a bombing and gunnery school at Dafoe, Saskatchewan, was reduced by the annual principal instalment of \$3,840.00, leaving the balance outstanding as at March 31, 1942, of \$53,760.00.

CANADIAN NATIONAL RAILWAYS

In the fiscal year ended March 31, 1942, the Government made net advances to the Canadian National Railways in the amount of \$251,721,581.94 for capital purposes, purchase of outstanding securities and the retirement of maturing obligations, under the following authorities:—

Under the authority of The War Appropriation Act, 1941, and The War Measures Act, the Dominion purchased \$1,027,425.52 of railway equipment which is being leased to the Canadian National Railways under the terms of a hire-purchase agreement. The Railway Company paid \$517,173.07 to the Government as an instalment under the terms of a hire-purchase agreement relating to certain equipment purchased by the Dominion in the fiscal years 1935-36 and 1936-37, and \$991,968.32 under the terms of a hire-purchase agreement relating to certain equipment purchased by the Government in the fiscal years 1939-40 and 1940-41.

CANADIAN PACIFIC RAILWAY COMPANY

Loans to the Canadian Pacific Railway Company made in previous years for various relief purposes were liquidated in advance of their due date by repayments aggregating \$980,940.00. In addition, the Railway Company paid the fifth instalment of \$410,769.23 under the terms of a hire-purchase agreement relating to certain equipment purchased by the Government in the fiscal years 1935-36, 1936-37 and 1937-38. The Railway Company also paid the first instalment of \$663,432.64 under the terms of a hire-purchase agreement relating to equipment purchased by the Government in the fiscal years 1939-40 and 1940-41, and leased to the Company.

CANADIAN GOVERNMENT MERCHANT MARINE LIMITED

During the fiscal year 1940-41, the Government advanced \$750,000 to the Canadian Government Merchant Marine, Limited, in order to provide working capital for the operation of certain ships seized in prize, and either requisitioned for use by the Canadian Government or condemned by the Court as prize. During the year ended March 31, 1942, these advances totalling \$750,000 were repaid in full from operating surplus and as of that date no loans were outstanding.

FOREIGN GOVERNMENTS

No payments, either on account of interest or principal were received during the fiscal year from the Governments of Roumania or Greece in respect of their indebtedness to the Dominion.

FOREIGN EXCHANGE CONTROL BOARD

As was shown in the Public Accounts for the fiscal year ended March 31, 1941, a loan of \$325,000,000 was advanced that year to the Foreign Exchange Control Board to enable the Board to purchase, under the Foreign Exchange Acquisition Order, the gold and foreign exchange of the Bank of Canada and certain foreign exchange holdings of other Canadian residents. During the fiscal year ended March 31, 1942, a further amount of \$400,000,000 was advanced to the Board to provide additional capital to permit the Board to carry on its operations, including the accumulation of sterling balances. The total advanced, namely \$725,000,000 appears in the balance sheet of the Dominion as an asset.

TOTAL INCREASE IN ACTIVE INVESTMENTS

As a result of the transactions outlined above, the total active investments of the Dominion Government increased during the year by an amount of \$641,147,849.67. Offset against this figure is an amount of \$25,000,000, an amount similar to that provided in 1940-41 for possible losses on ultimate realization of various loans and advances. This leaves a net increase in active investments of \$616,147,849.67.

The following table shows how this increase is accounted for:—

HOW INCREASE IN NET DEBT AND IN INVESTMENTS WAS FINANCED

The table which follows shows how the increase in net debt and in investments during the fiscal year was financed. The increase in net debt was \$396,529,712.24. Adding the net increase in Active Investments of \$616,147,849.67 to the increase in the net debt establishes a total of \$1,012,677,561.91 of which \$10,981,612.58 represents a bookkeeping entry in connection with the Discount Amortization Account. The net amount, namely \$1,001,695,949.33 was financed as follows:

OLD AGE PENSIONS AND PENSIONS FOR BLIND PERSONS

During the year Old Age Pensions and Pensions for Blind Persons were paid in the nine provinces and in the Northwest Territories. Appendix No. 24. (page 109), shows by provinces the number of pensioners, average monthly pension, Dominion Government's contributions for the fiscal year and the total contributions by the Dominion Government from the inception of the Act.

DEPARTMENT OF FINANCE

ASSISTANCE TO RAILWAYS

As required by Sec. 24 of the Canadian National Railways Capital Revision Act, 1937, a detailed statement showing total assistance granted in various forms to all Railways was included as an appendix to the Public Accounts of Canada for the fiscal year 1937-38. This statement has been revised to March 31, 1942, and is included in the Public Accounts for the current year as Appendix No. 25 (pages 110-153).

GUARANTEED SECURITIES

CANADIAN NATIONAL RAILWAY COMPANY

Railway securities guaranteed by the Dominion as to the payment of principal and interest were outstanding on March 31, 1942, in the amount of \$755,223,524.59, a reduction of \$81,174,973.47, during the fiscal year. Railway securities guaranteed by the Dominion as to the payment of interest only, were outstanding on the same date in the amount of \$33,075,010.34, a reduction of \$83,997,688.47. These reductions were mainly due to the purchase of securities by the Government of Canada from the Treasury of the United Kingdom pursuant to the provisions of The War Appropriation (United Kingdom Financing) Act, 1942.

GOVERNMENT OF NEWFOUNDLAND

Advances by Canadian chartered banks to the Government of Newfoundland, amounting to \$625,000 and carrying the guarantee of the Dominion of Canada have appeared in the list of guarantees in the Public Accounts since 1933. These advances were paid off by the Government of Newfoundland in the fiscal year ended March 31, 1942.

CANADIAN RED CROSS SOCIETY

Under the terms of Order in Council of March 10, 1942, P.C. 1809, passed pursuant to the provisions of The War Measures Act, the Government guaranteed the repayment of bank advances, together with interest thereon, obtained by the Canadian Red Cross Society to a maximum of \$3,000,000. It was anticipated that this Society would require funds for carrying on its war services pending the time when receipts would be available to it from a general public campaign. However, no advances were required under this guarantee.

NAVY LEAGUE OF CANADA

Under the terms of Order in Council of September 23, 1941, P.C. 7397, passed pursuant to The War Measures Act, the Government guaranteed the repayment of bank advances, together with interest thereon, obtained by the Navy League of Canada to a maximum of \$100,000. It was necessary for this organization to obtain funds in order to carry on its services pending the time when receipts would be available from a general public campaign. Advances under this guarantee reached a maximum of \$98,996.11. A payment by the Government to the Navy League and charged to expenditure in the fiscal year ended March 31, 1942, was sufficient to liquidate the advances outstanding under this guarantee at the close of the fiscal year.

GRAIN MARKETING

Under the authority of the Canadian Wheat Board Act, 1935, as amended, a price of 70 cents per bushel, basis No. 1, Northern, Fort William, was fixed as the basic price at which the Canadian Wheat Board was willing to pay for wheat of the 1941 crop delivered to the Board on a quota basis by producers thereof. The Board's operations were financed by loans obtained from a group of chartered

banks under guarantee of the Dominion Government. The amount of the guaranteed bank loans outstanding at March 31, 1942, which mainly related to the purchase of the 1939, 1940 and 1941 wheat crops was \$116,686,562.27.

The guarantee of the Dominion to the Winnipeg Grain and Produce Clearing Association, Limited, arising out of transactions and trades made by the Canadian Wheat Board, continues. No liability in connection with this guarantee accrues from day to day, as margin deposits are made by the Board to the Association daily.

SEED GRAIN LOANS

Under the terms of The Seed Grain Loans Guarantee Act, 1938, the Dominion provided seed grain assistance to farmers in the Provinces of Saskatchewan and Alberta for the crop year 1938. This assistance took the form of a Dominion guarantee to chartered banks for loans made to municipalities which in the first instance were guaranteed by the Provincial Government. The principal amount authorized by the Act to be guaranteed by the Dominion was \$14,500,000 with respect to Saskatchewan, and \$1,000,000 with respect to Alberta. In the case of Alberta the Provincial Government during the fiscal year paid to the interested banks all outstanding 1938 seed grain loans and accordingly the Dominion's liability with respect thereto was cancelled. In the case of Saskatchewan, a general guarantee was given for an amount not exceeding the maximum amount authorized. This guarantee is still outstanding.

NATIONAL HOUSING ACT

Under the Dominion Housing Act, 1935, and the National Housing Act, 1938, the Dominion has accepted and is accepting certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities.

The manner in which losses in respect of any loan are to be borne by the Dominion, and the lending institution is fixed by the contract. The general principle is that the Dominion bears two-thirds of the loss if at the time the loss is sustained the principal amount of the loan repaid, less any other amounts due, is equal to or less than the amount advanced by the Dominion and one-third of the loss if at the time the loss is sustained the principal amount repaid, less any other amounts due, is more than the amount advanced by the Dominion. In the case of small loans (that is, loans not in excess of \$4,000 in the case of a single family dwelling or not in excess of \$700 per habitable room in the case of a multiple family dwelling) the share of the loss to be borne by the Dominion is not more than 80 per cent and not less than 50 per cent of the loss. The above provisions apply to loans made under both the National Housing Act, and its predecessor Act, the Dominion Housing Act. Under the National Housing Act, a new provision was added to encourage the making of small loans in such small or remote communities and in such districts of other communities as may be designated by the Minister of Finance in any contract. In respect of such loans, the Dominion has agreed in contracts with certain lending institutions to pay losses sustained by any such lending institution up to certain amounts determined by the contract which are not less than 7 per cent and do not exceed 25 per cent of the total amount of such loans made in such areas by each such lending institution.

The total amount of loans approved at March 31, 1942, under the Dominion Housing Act, 1935, and the National Housing Act, 1938, was \$76,784,145. Losses realized by the Dominion as of that date amounted to \$1,010.28.

DEPARTMENT OF FINANCE

HOME IMPROVEMENT LOANS

Under the terms of The Home Improvement Loans Guarantee Act, 1937, \$49,959,055.31, had been loaned up to March 31, 1942, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans was limited to 15 per cent. of the aggregate of such loans made by each lending institution. As at October 30, 1940, after four years of operation, the \$50,000,000 loan authorization having been substantially exhausted, the Government's undertaking to provide a guarantee for this type of loan was terminated. After this date, loans made by lending institutions were not accepted for guarantee by the Dominion. As at March 31, 1942, 87.7 per cent of the total amount of all loans made had been repaid and as 801 claims for losses in the amount of \$259,099.92 had been paid up to March 31, 1942, of which \$10,234.07 had been recovered, the contingent liability of the Government at that date was the entire balance owing on all loans, i.e. \$6,162,007.54. It will be noted that the total of claims paid less recoveries amounted to 4.98 per cent of the total amount of loans made.

GUARANTEED BANK LOANS RE DEPARTMENT OF MUNITIONS AND SUPPLY

The Government guaranteed the repayment of bank loans together with interest thereon obtained by certain contractors in connection with contracts placed by the Department of Munitions and Supply. As at March 31, 1942, the amount of such guaranteed bank loans authorized was \$3,730,000, and the amount actually outstanding was \$1,700,356.56.

PROVINCIAL RECEIPTS FROM GASOLINE TAXES UNDER DOMINION-PROVINCIAL TAXATION AGREEMENTS

Under the terms of the Dominion-Provincial Taxation agreements, and pursuant to Section 5 of the Dominion-Provincial Taxation Agreement Act, 1942, provision is made for the payment to each province of the amount by which the net receipts from the tax imposed by the Province on the sale of gasoline are less than the net receipts from this source in the fiscal year of each province ended nearest to December 31, 1940. The gasoline tax revenues that have been thus guaranteed aggregate \$56,734,905.96.

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In this year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan Flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund, and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises was also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under the various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include non-active loans and write-down of assets, in addition to all other expenditures.

† Includes \$25,000,000 as reserve against possible losses on assets.

NOTE.—The above table is based on the classification of accounts adopted for the fiscal year 1936, and appropriate adjustments for the years 1930-35 were made for comparative purposes. Instead of showing Surplus or Deficit in Consolidated Fund as in the preceding table, the difference between Total Revenues and Total Disbursements, in other words, the increase in Net Debt, is shown in the final column.

* Includes net credit of \$1,023,058.94 resulting from Canadian National Railways Capital Revision Act, 1937.

This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Trusts for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest, however, was never taken into the accounts of the Dominion but interest amounting to \$50,892,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1939 was \$57,478,166.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

(a) Amount paid by Dominion in acquiring 600,000 shares of the capital stock of the Canadian Northern Railway Company.

(b) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company (See detailed explanation in Appendix 25I).
(c) Of this amount \$7,80,912 was not used for capital expenditures but represented the balance due by the Company under agreement made in 1883 for the erection of a fund to be held by the Government to guarantee a dividend of 3 per cent per annum for ten years on the Company's outstanding stock in an endeavour to assist in financing construction through the sale of additional stock. The amount on deposit with the Government was, at all times, more than sufficient to meet the payments which, under the agreement, the Government undertook to make. The obligation of the Company was fully discharged in 1886, some years in advance of its due date (See Note E to Appendix 25E, Page 139).

(a) Difference between conversion of pound sterling at \$4.86½ and at \$4.86 charged to Consolidated Fund of Canada.

(b) Adjustments to loans, under authority of the Canadian National Railways' Capital Revision Act of 1937—Capital expenditures on wharves \$81,006,527.61 transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway \$860,369.96 transferred to the Department of Transport.

(c) This amount represents losses in operation of \$373,823,120.38; losses amounting to \$10,898,548.23 during years 1937 to 1941 due to line abandonments in respect of which the Government has not made cash reimbursements to the railway and net capital loss of \$1,474,371.21 on sale of S.S. "Prince David" and S.S. "Prince Robert" less the capital gain of \$5,652,774.17 on redemption of Grand Trunk Railway 4% Perpetual Debenture Stock and increase in Dominion's Equity in Canadian National Railways due to surplus earnings of the system for the calendar year 1941—\$4,016,326.74.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government. Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) Of this amount \$2,853,912 was originally due February 1st, 1884, and \$4,525,000 on November 7th, 1888. Later, the aggregate of these two amounts, \$7,380,912 was consolidated with the construction loan of \$21,650,700; the security was rearranged and the whole was made payable on May 1st, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,793,014 acres of a land grant valued at \$1.50 per acre, amounting to \$10,189,521.33. This amount included interest of \$308,669.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Balance Sheet of the Public Accounts of Canada under assets, Miscellaneous Current Accounts, Schedule "I".

Appendix No. 25M

CALCULATION OF ACCRUED INTEREST ON LOANS

NOTE.— This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and predecessor companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest here shown was never taken into the accounts of the Dominion, but interest amounting to \$39,852,397.67 was shown on the books of the Railway. Total amount of interest calculated up to December 31, 1936 was \$74,781,657.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railway Securities Trust as provided for by the Canadian National Railways Revision Act of 1937.
